*Practicing Atheism* Hannah K. Scheidt, 2021 Although many individuals identify as atheists little is understood about the belief system beyond the simple lack of a belief in a higher power Hannah K Scheidt's *Practicing Atheism* Culture Media and Ritual in the Contemporary Atheist Network unpacks the cultural products both corporate driven and grassroots that carry messages about atheism to examine the complicated relationship between organized atheism and religion *Don't Tell Me* Mark Schwieso, 2022-08-19 Today we live in a complacent country where only certain answers are acceptable In this book the author dares to go against accepted wisdom considering questions such as Is the divorce rate really 50% and if it isn't what is it and why should we care Why is the media telling us COVID 19 is so bad Do we really know Charles Darwin's theory of evolution to be true Has the Bible been disproven and debunked Other topics include the Big Bang Theory biological differences between men and women politics and religion random mutations UFOs and global myths The author also explains that the best lies are 99% true liars practice their craft using the truth to mislead others Moreover he notes that no matter what you believe truth is still true For instance even if a person believes they can fly if they jump off a ten story building they will still die upon hitting the ground Join the author as he asks questions that the establishment would prefer you keep to yourself by reading *Don't Tell Me* *Dominance and Aggression in Humans and Other Animals* Henry R. Hermann, 2017-01-05 *Dominance and Aggression in Humans and Other Animals* The Great Game of Life examines human nature and the influence of evolution genetics chemistry nurture and the sociopolitical environment as a way of understanding how and why humans behave in aggressive and dominant ways The book walks us through aggression in other social species compares and contrasts human behavior to other animals and then explores specific human behaviors like bullying abuse territoriality murder and war The book examines both individual and group aggression in different environments including work school and the home It explores common stressors triggering aggressive behaviors and how individual personalities can be vulnerable to or resistant to these stressors The book closes with an exploration of the cumulative impact of human aggression and dominance on the natural world Reviews the influence of evolution genetics biochemistry and nurture on aggression Explores aggression in multiple species including insects fish reptiles birds and mammals Compares human and animal aggressive and dominant behavior Examines bullying abuse territoriality murder and war Includes nonaggressive behavior in displays of respect and tolerance Highlights aggression triggers from drugs to stress Discusses individual and group behavior including organizations and nations Probes dominance and aggression in religion and politics Translates the impact of human behavior over time on the natural world **Confound the Critics** Bodie Hodge, 2014-09-01 Can be enjoyed by anyone from skeptics to Christians to scholars Replies to actual attacks from newspaper articles blogs debate boards DVDs and other sources Short powerful responses to strengthen faith and develop a greater respect for God's Word Ever been asked Can God create a rock so heavy that He cannot lift it Your reply is a great

**4Th Michael Ebifegha, 2017-12-20 4th Refuting the Myth of Evolutionism and Exposing the Folly of Clergy Letters** The Darwinian theory of evolution begins with facts science of microevolution and ends with fiction myths of macroevolution The myths are part of our experience no transitional organisms in the living world and part of our discoveries no transitional fossils in such deposits at the Burgess Shale and Chengjiang sites where various kinds of organisms appear together in large collection In his fourth book Refuting the Myth of Evolutionism and Exposing the Folly of Clergy Letters author Michael Ebifegha stresses that real science is timeless and based on events that are directly or indirectly observable testable and repeatable Challenging evolutionists and their clerical allies who are banning the teaching of creationism in public schools Ebifegha insists that evolutionism is also outside sciences purview and therefore should be banned as well He reprimands clerics for capitalizing on human knowledge but failing to recognize the validity of Gods personal claim in speech before an audience and in print on stone tablets for having created the world These interventions he asserts fulfill the worlds standard legal requirement for inventors Ebifegha argues that the inconsistency of imposing evolutionism as scientific truth on the public and banning creationism violates 1 the academic rights of accomplished scientists who disagree with evolutionism on scientific grounds 2 the US Supreme Courts 1992 declaration At the heart of liberty is the right to define ones own concept of existence of meaning of the universe and of the mystery of human life and 3 Gods historical claim to ownership of the universe Instead of separation of church and state Ebifegha recommends separation of worldviews and state

Its message of biblical authority is even more relevant today This anniversary edition is an even more powerful eye opening book for the church Ken Ham once again takes the lead in pointing out the looming precipice that thousands of church leaders are rushing toward a denial of the full authority and accuracy of the Bible from its very first verse Originally published in 1987 The Lie took a bold stand which became prophetic Ken warned the church about the destructive effects of compromise with evolutionary millions of years ideas He warned that compromise in Genesis would undermine Scriptural authority in the culture and erode confidence in the infallibility of God s Word Today Christians increasingly doubt the Bible s reliability So then do those who are considering placing their faith in Jesus the Creator The issues are of critical importance when you realize that today we have Christians not only confused when it comes to Genesis and the age of the earth but now even the reality of hell Adam as a real person and Christ s own words about creation marriage and more One compromise just leads to another and it has to end if we want to leave a legacy of faith to future generations *Scientific American*,1875 **Did Adam Have a Bellybutton?** Ken Ham,2000-02-01 These concise relevant topics answer questions on the

minds of Christians and seekers everywhere Ham has discovered that multitudes of people want to know the answers to key questions like Where did Cain get his wife and How could Noah fit all of those animals on the ark The Bible does have answers to tough questions such as these so there s no reason Christians can t defend their faith against attack On each page of the book Ham takes a popular question and gives an answer that is both plausible and faith strengthening With a reputation as one of the world s foremost authorities on the debate between creation and evolution Ham provides many new insights in his latest work SAMPLE QUESTIONS Couldn t there have been a race of people before Adam and Eve If Adam lived 6 000 years ago why do some say the earth is billions of years old What if God used evolution to create What is the Gap Theory Is Evolution Compatible with Christianity? Christopher Gieschen,2019-09-30 All of these statements are false Christians are science deniers when it comes to evolution Real science actually lines up more with evolution than creation as found in Genesis Fossils are evidence for evolution The Genesis account is fully compatible with evolution These questions need answers What exactly is the difference between evolution right and evolution wrong Is it possible to bend Genesis to fit evolution How can one defend belief in a six day creation from the onslaughts of the evolutionists How about any questions you have This book is a must for any Christian about to enter a public high school or university Accepting evolution as true is the basis for three of the ten reasons Christians give up saving faith It is time for you to arm yourself with the truth and stand your ground logically philosophically scientifically and most important biblically Ready Let s go **The Morning Star Journal, Vol. 7** Rick Joyner,1996-12 **Scene, Channel 2 and 17** ,1981
