Alchemy Ever After:

The Jewish Alchemists Raphael Patai, 2014-07-14 In this monumental work Raphael Patai opens up an entirely new field of cultural history by tracing Jewish alchemy from antiquity to the nineteenth century. Until now there has been little attention given to the significant role that Jews played in the field of alchemy. Here drawing on an enormous range of previously unexplored sources Patai reveals that Jews were major players in what was for centuries one of humanity's most compelling intellectual obsessions. Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The Secrets of Alchemy Lawrence Principe, 2013 Alchemy the Noble Art conjures up scenes of mysterious dimly lit laboratories populated with bearded old men stirring cauldrons. Though the history of alchemy is intricately linked to the history of chemistry alchemy has nonetheless often been dismissed as the realm of myth and magic or fraud and pseudoscience. And while its themes and ideas persist in some expected and unexpected places from the Philosopher's or Sorcerer's Stone of Harry Potter to the self help mantra of transformation there has not been a serious accessible and up to date look at the complete history and influence of alchemy until now.

[ProxyWar Book 6 of the Spies Lie Series](#) D. S. Kane, 2015-11-30 When you're an international spy who said dying was easy Yigdal Ben Levy used to be the Mossad spymaster but now he's Israel's Assistant Foreign Minister in D.C. exiled and long out of the game of spying. Diagnosed with terminal stomach cancer he's waiting to die when he stumbles across a Chinese-Russian plot against the United States. Despite opposition from his Prime Minister Ben Levy decides to present his suspicions to the UN General Assembly after the President rejects his intel. Unfortunately the UN is in New York City nearly 300 miles away a journey filled with Russian and Chinese assassination teams, cyber attacks that threaten US communications and a violent snowstorm that has closed airports and made the roads treacherous. Ben Levy still has some operatives he can rely upon but it's a threadbare team: Jon Sommers, Cassandra Sashakovich, Avram Shimmel, William Wing and a few others. Not enough to stop the world war that's about to happen. The risk: Monumental. The cost if they don't succeed: A Chinese takeover of America's power grid followed by a military invasion and a division of US land down the Mississippi. With enemies on all sides and the cancer spreading it will take everything Ben Levy and his team of spies has to warn the world of the impending war.
