Elementary Statistics Allan G. Bluman, 2001 New edition of a beginning statistics text for students whose mathematical background is limited to basic algebra Bluman Community College of Allegheny County uses a nontheoretical approach in which concepts are explained intuitively and are supported by examples There are no formal proofs and the applications include problems from business economics health medicine science engineering social science education and topics of general interest Each of the eight chapters begins with an outline and a list of learning objectives Contains a removable foldout of important formulas Annotation copyrighted by Book News Inc Portland OR

Intermediate Algebra Mark Dugopolski, 2005 Intermediate Algebra is designed to provide your students with the algebra background needed for further college level mathematics courses The unifying theme of this text is the development of the skills necessary for solving equations and inequalities followed by the application of those skills to solving applied problems The primary goal in writing the third edition of Intermediate Algebra has been to retain the features that made the second edition so successful while incorporating the comments and suggestions of second edition users Many new features have been

provided that will help instructors reach the goals that they have set for their students As always the author endeavors to write texts that students can read understand and enjoy while gaining confidence in their ability to use mathematics

Algebra and Trigonometry John W. Coburn, 2010 Three components contribute to a theme sustained throughout the Coburn Series that of laying a firm foundation building a solid framework and providing strong connections Not only does Coburn present a sound problem solving process to teach students to recognize a problem organize a procedure and formulate a solution the text encourages students to see beyond procedures in an effort to gain a greater understanding of the big ideas behind mathematical concepts *Algebra for College Students* Mark Dugopolski, 2006 Algebra for College Students 4th Edition is designed to provide students with the algebra background needed for further college level mathematics courses The unifying theme of this text is the development of the skills necessary for solving equations and inequalities followed by the application of those skills to solving applied problems This text contains 2 chapters Polynomial Rational Functions and Counting Probability in addition to those found in Dugopolski's Intermediate Algebra
