

Student Exploration: Food Chain

Due _____

Prior Knowledge Questions (Do these BEFORE using the Gizmo.)

The *Food Chain Gizmo*™ shows a **food chain** with hawks, snakes, rabbits, and grass. In this simulation, the hawks eat snakes, the snakes eat rabbits, and the rabbits eat grass.

1. **Producers** are organisms that do not need to eat other organisms to obtain energy.
 - A. Which organism is a producer in this food chain? [**The grass**]
 - B. Where does the producer get its energy? [**The sun**]
2. **Consumers** must eat other organisms for energy. Which organisms are consumers in this food chain? [**The rabbit, snakes, and the hawk.**]

Gizmo Warm-up

The **SIMULATION** pane of the Gizmo shows the current **population**, or number, of each organism in the food chain.

1. What are the current populations of each organism?

Grass: [**27300**] Rabbits: [**2566**] Hawks: [**278**] Snakes: [**42**]

2. Select the **BAR CHART** tab, and click **Play** (▶). What do you notice about each population as time goes by?

[**Some of the species decrease in % of balance**]

If populations don't change very much over time, the ecosystem is in **equilibrium**.

3. Compare the equilibrium populations of the four organisms. Why do you think populations decrease at higher levels of the food chain? [**Because they depend on the lower parts of the food chain to survive.**]

If you cannot access all the Gizmo site, you **MUST** send them a request for help and get your computer configured so it will work. If they are unable to help you, then you **MUST** use a computer in the library or somewhere else to complete your assignment by the due date!

Answers Key For Student Exploration Food Chain

Nancy Sulla

Answers Key For Student Exploration Food Chain:

Students Taking Charge in Grades K-5 Nancy Sulla, 2018-11-01 Discover how to design innovative learning environments that increase student ownership so they can achieve at high levels and meet rigorous standards *Students Taking Charge* shows you how to create student driven classrooms that empower learners through problem based learning and differentiation where students pose questions and actively seek answers Technology is then used seamlessly throughout the day for information communication collaboration and product generation You ll find out how to Design an Authentic Learning Unit which is at the core of the Learner Active Technology Infused Classroom aimed at engaging students Understand the structures needed to support its implementation and empower students Build the facilitation strategies that will move students from engagement to empowerment to efficacy This new K 5 edition offers a more detailed look into elementary school implementation With the book s practical examples and step by step guidelines you ll be able to start designing your innovative classroom immediately
