

## SOAP Note for Appendicitis

**Introduction**

The abdominal area has multiple vital organs such as the kidneys, the intestines, the stomach, and the appendix that can get infected and lead to various diseases. The scenario of the seventy-year-old Caucasian female involves the organs in the lower right quadrant of her abdomen, and the symptoms the woman is experiencing could be associated with various diseases. The most probable diagnosis for the woman is appendicitis, but other ailments could be likely diagnoses. To design the best treatment plan, it is essential to understand the data required to make an accurate diagnosis for the old woman's condition and the elimination of other likely diagnoses to decide on Appendicitis as the most accurate.

**Subjective****Available Subjective Data**

A seventy-year-old client at a nursing home complains of "I have a sharp pain that makes me feel nausea, and I vomit sometimes. The pain does not seem to reduce even after I use my prescribed PRN drugs and it is worse after meals." The senior woman has a medical history of hypertension, diabetes mellitus, obesity, and arthritis in her knee. Due to her prevailing medical conditions, the lady consumes PRN drugs to control some of her symptoms and to avoid complications. She has been a widow for a decade and had two adult children and five grandchildren. The woman was an elementary school teacher and retired with forty-five years of experience. She has also been a resident for six years in the nursing home.

emerging trends in today's health information management. *Health Information Technology* 3rd Edition covers everything from electronic health records and collecting healthcare data to coding and compliance. It prepares you for a role as a Registered Health Information Technician, one in which you not only file and keep accurate records but serve as a healthcare analyst who translates data into useful quality information that can control costs and further research. This edition includes new full color illustrations and easy access to definitions of daunting terms and acronyms. Written by expert educators Nadinia Davis and Melissa LaCour, this book also offers invaluable preparation for the HIT certification exam. Workbook exercises in the book help you review and apply key concepts immediately after you've studied the core topics. Clear writing style and easy reading level makes reading and studying more time efficient. Chapter learning objectives help you prepare for the credentialing exam by corresponding to the American Health Information Management Association's AHIMA domains and subdomains of the Health Information Technology HIT curriculum. A separate Confidentiality and Compliance chapter covers HIPAA privacy regulations. Job descriptions in every chapter offer a broad view of the field and show career options following graduation and certification. Student resources on the Evolve companion website include sample paper forms and provide an interactive learning environment. NEW Full color illustrations aid comprehension and help you visualize concepts. UPDATED information accurately depicts today's technology including records processing in the EHR and hybrid environments, digital storage concerns, information systems implementation and security issues including HITECH's impact on HIPAA regulations. NEW Glossary terms and definitions plus acronyms and abbreviations in the margins provide easy access to definitions of key vocabulary and confusing abbreviations. NEW Go Tos in the margins cross reference the textbook by specific chapters. NEW Coding boxes in the margins provide examples of common code sets. Over 100 NEW vocabulary terms and definitions ensure that the material is current and comprehensive. NEW Patient Care Perspective and Career Tips at the end of chapters include examples of important HIM activities in patient care and customer service.
