Comprehensive Healthcare Simulation: Operations, Technology, and Innovative Practice Scott B. Crawford, Lance W. Baily, Stormy M. Monks, 2019-07-17 This practical guide provides a focus on the implementation of healthcare simulation operations as well as the type of professional staff required for developing effective programs in this field. Though there is no single avenue in which a person pursues the career of a healthcare simulation technology specialist HSTS this book outlines the extensive knowledge and variety of skills one must cultivate to be effective in this role. This book begins with an introduction to healthcare simulation including personnel curriculum and physical space. Subsequent chapters address eight knowledge skill domains core to the essential aspects of an HSTS. To conclude best practices and innovations are provided and the benefits of developing a collaborative relationship with industry stakeholders are discussed. Expertly written text throughout the book is supplemented with dozens of high quality color illustrations photographs and tables. Written and edited by leaders in the field Comprehensive Healthcare Simulation Operations Technology and Innovative Practice is optimized for a variety of learners including healthcare educators simulation directors as well as those looking to pursue a career in simulation operations as healthcare simulation technology specialists Critical Praxis and the Social Imaginary for Sustainable Food Systems Max Stephenson, Kim Niewolny, Anna Erwin, Laura Zanotti, 2024-09-26 Scholarship and high level diplomatic reports alike including that of the Intergovernmental Panel on Climate Change 2021 have highlighted the negative material and bodily inequities of our globalized industrial food system one that is fuelled by a hegemonic politics of food access and availability. The effects of industrialized food systems on public health human rights food sovereignty

ecological sustainability for land and water as well as for climate change are increasingly obvious. These ongoing challenges along with the COVID 19 pandemic have exacerbated existing social, economic and political inequalities and vulnerabilities and placed them in the spotlight. The crisis in the Ukraine has also underscored how connected global industrialized food systems are to nation state geopolitical interests, international alliances, trade relations and conflicts. The current industrialized resource intensive food system has persisted because of a complex set of power relations despite its continuing and deepening social, ecological and cultural costs.
