### **Understanding the Military Design Movement** Ben

Zweibelson, 2023-06-09 This book explains the history and development of the military design movement featuring case studies from key modern militaries. Written by a practitioner, the work shows how modern militaries think and arrange actions in time and space for security affairs and why designers are disrupting challenging and reconceptualizing everything previously upheld as sacred on the battlefield. It is the first book to thoroughly explain what military design is, where it came from, and how it works at deep philosophically grounded levels and why it is potentially the most controversial development in generations of war fighters. The work explains the tangled origins of commercial design and that of designing modern warfare, the rise of various design movements, and how today's military forces largely hold to a Newtonian stylization built upon mimicry of natural science infused with earlier medieval and religious inspirations. Why does our species conceptualize war as such, and how do military institutions erect barriers that become so powerful that efforts to design further innovation require entirely novel constructs outside the orthodoxy? The book explains design stories from the Israel Defense Force, the US Army, the US Marine Corps, the Canadian Armed Forces, and the Australian Defence Force for the first time and includes the theory, doctrine, organizational culture, and key actors involved. Ultimately, this book is about how small communities of practice are challenging the foundations of modern defence thinking. This book will be of much interest to students of military and strategic studies, defence studies, and security studies, as well as design educators and military professionals. **Official Gazette** Vietnam, 2016

### **Pakistan Army: Legislator, Judge and Executioner** Wing Commander (Dr) U C Jha, 2016-08-15

Almost every state in the world has an army to protect it from external aggression, except in the case of Pakistan where the relationship between the state and the army is in the reverse order. The Pakistan Army has the state. The army has governed the state directly during half of its existence, and in the remaining half of its history indirectly. The Pakistan Army has also ensured that other independent organs of the state, executive and the judiciary, function under its shadow. The army has another unique feature: it runs the biggest business conglomerate that owns everything from factories and bakeries to farmland and golf courses. In 2015, the Parliament, by a two-third majority, handed over another responsibility to the army: trial of civilians in military courts on the ground that the criminal justice system and the civilian judiciary are incapable of handling the cases pertaining to terrorists. As the trials in summary military courts fall short, as compared to national or international fair trial standards, the risk of serious miscarriage of justice cannot be ruled out. Several armed conflicts are taking place in Pakistan in which the armed forces and its allies are at war on terrorism, especially the military of the United States of America (USA) are involved in fighting several groups of militants and terrorists. The USA, as well as the Pakistan military, have used lethal drones against the citizens of Pakistan. The military's involvement in war on terror has led to devastating results in terms of loss of life, destruction of property, besides they have also been responsible for enforced disappearances, a serious crime against humanity. This book analyses the Military Justice System of Pakistan and makes an

assessment of its international obligations under the international human rights law and the laws of armed conflict
