This ExamFOCUS Study Notes build a solid focus while revisiting key examination topics relevant to the fourth CPIM module, ECO. Whether you are just starting to study, cramming at the last minute, or simply looking to refresh, this could prove to be a lifesaver. To succeed in the ECO exam, you need to get yourself truly familiar with the most important information by going through sufficiently focused revision. This is where we fill the gap: you may think of our product as the unofficial supplement to the regular training class, or you may view it as a standalone module with a focus on building up your exam readiness. **Cpim**

Certification Exam Examfocus Study Notes & Review Questions 2018/19 Examreview, 2018-03-09 A supply chain is a network of retailers, distributors, transporters, storage facilities, and suppliers that participate in the sale, delivery, and production of a particular product. The concept of supply chain often involves backward integration, acquiring ownership of one's supply chain in the hope of reducing supplier power and thus reducing input costs. The four major functional components are demand planning, manufacturing planning and scheduling, supply planning, and transportation planning. The reconfigured module 1 BSCM exam covers the basics. The exam attempts to test your basic understanding towards supply chain and the various PIM (production and inventory management) concepts. Many people consider this exam as the easiest one. To assure exam success, you need to read and learn as much as possible. Our ExamFOCUS notes provide knowledge material to enhance your exam readiness; we help answer those tough questions that cover advanced knowledge and concepts not commonly found in the standard study material. Still, the coverage of the exam is huge. Expecting full and complete coverage of all the knowledge items from a single source is unrealistic.
