

GarageBand at a Glance

"GarageBand at a Glance" introduces you to the features and controls in the GarageBand windows. You use these controls to create your songs in GarageBand. Take a look at these pages even if you don't plan to complete the tutorial, because knowing the names and functions of the GarageBand controls will make it easier to find answers to your questions in GarageBand Help.

The pages that follow introduce you to the main GarageBand window—including the timeline, the track editor, and the loop browser—and to the Track Info window. You record Real and Software Instruments, add loops, and arrange and mix your songs in the main window, and change track instrument, effects, and input settings in the Track Info window.
