Audio script

Ethan: Hey, Sarah, look at these optical illusions! My cousin has just emailed them to me. Have you seen any of them before?

Sarah: Cool! I haven't seen all of these. What does it say about them?

Ethan: For A it says 'Are the lines straight and parallel?'

Sarah: They can't be straight. They look as if they're going up and down, and the bands are wider and narrower at the sides, so there's no way they can be parallel.

Ethan: Well, apparently it only appears that way. And you can test it with a ruler.

Sarah: Wow! Look, they are parallel! That's incredible!

Ethan: Oh, I've seen B before. They're called the Reversible Stairs.

Sarah: Yes, the ones that look as if they're going up and up forever. It looks so weird! You know it must be an illusion, but it looks like the stairs really are going up!

Ethan: C is a new one to me. It just looks like an old lady. I can't see the illusion.

Sarah: Oh, I can see it. Take another look. Can you see anything else?

Ethan: Oh yeah! It could also be a young woman. That's clever! I love the way that when you see one thing, the other disappears completely!

Sarah: Yes, that's what happens with D. It could be a black picture on a white background, or it might be a white picture on a black background. You see one, a glass, and then the other two faces.

Ethan: It only seems like a black glass to me ... Oh, hang on, yes, I can see the two faces now. They look as if they're staring at each other.

Sarah: It's hurting my eyes! The dots between the squares look white at first, and then they look black.

Ethan: Yes, and it looks as if they disappear completely as you move your eyes around.

Sarah: What does it say about F?

Ethan: It says, 'Which of the diagonal lines is longer?'

Sarah: The one on the left definitely looks longer – it must be quite a bit longer.

Ethan: No, they're the same length!

Sarah: I don't believe it, they can't be. Where's that ruler ... ? Oh, no, it's true! That's amazing!
