

Example Application Form Answers

This leaflet should be read in conjunction with the **Guide - CVs and Applications**
www.careers.dept.shef.ac.uk/flipbooks/applications/

The guide gives advice on how to write good CVs, covering letters, and application forms and provides a few examples. This leaflet provides a much wider range of examples which cover two main types of application form:-

Application forms that ask a series of questions - which relate to:-

- Your **skills/competencies**
- Your **motivations** for applying

The examples listed provide a weak answer and then a better answer to the same question. There are also comments which explain the relative strengths and weaknesses of each answer, to help you understand what makes a good answer.

Application forms that have a Personal Statement/Additional Information section

Many applications have a 'blank page' section entitled 'Personal Statement' or 'Additional Information'. It is the key section on the application form. In many ways it is similar to the Personal Statement you had to complete when you applied to University. We have provided a job specification and then written a good answer as an application for that job.

IMPORTANT: you should NOT simply copy the style of any of these answers – after all, they do not relate to your experiences. Instead, use the information to help you follow best practice when completing application forms.

You should also use the other resources on writing applications provided on our website
www.sheffield.ac.uk/careers/students/gettingajob

Skills questions with example answers

Some questions ask for examples of when you have used particular skills, or competencies that the employer believes to be necessary for the job concerned. The following 'Skills questions', typical of many questions posed in online and paper-based applications, highlight examples of good and bad practice.

1. Team working

Give an example, from outside of your studies, of when you have worked in a team. What was your role and what did you contribute to the team's performance? (200 words)

Answer A) I am on the Committee of the University Drama Society and last semester we had to organise a Community Event. We met to decide who was going to do what and I was given the task of getting enough money for the event. My Father is a member of the Chamber of commerce and he put me in touch with some of his friends and I managed to generate £200 sponsorship money. As a team we met together regularly to discuss progress. The event was a big success and the rest of the team appreciated me getting together this amount of money. (102 words)

exponential and logarithmic functions w3schools - Mar 19 2022

web the function defined by $f(x) = b^x$ where $b > 0$ and $b \neq 1$ is called an exponential function with base b and exponent x here the domain of f can be explained as a set of all real numbers let m and n be positive numbers and let a and b be real numbers then the exponential function $y = b^x$ where $b > 0$ and $b \neq 1$ is associated with the following properties the domain is

exponential and logarithmic functions toppr - Apr 19 2022

web the exponential and the logarithmic functions are perhaps the most important functions you ll encounter whenever dealing with a physical problem they are the inverse of each other and can be used to represent a large range of numbers very conveniently

3 2 1 solving exponential equations k12 libretexts - Sep 24 2022

web mar 27 2022 a common technique for solving equations with unknown variables in exponents is to take the log of the desired base of both sides of the equation then you can use properties of logs to simplify and solve the equation take the following equation to solve for t you should first simplify the expression as much as possible and then take

and logarithmic functions and equations sofad - Oct 06 2023

web mth 5107 2 exponential and logarithmic functions and equations sofad 1 graphing an exponential function graph an exponential function of the form $f(x) = acb^x + h$ and determine the characteristics of the function and the connections between the change in a parameter of the rule and the transformation of the corresponding cartesian

4 7 exponential and logarithmic equations mathematics - Aug 24 2022

web may 2 2023 use logarithms to solve exponential equations use the definition of a logarithm to solve logarithmic equations use the one to one property of logarithms to solve logarithmic equations solve applied problems involving exponential and logarithmic equations

1 5 logarithms and exponential functions mathematics libretexts - Jan 29 2023

web in this section we will discuss logarithmic functions and exponential functions the exponent rules we learned last section also apply to the exponents we see in exponential functions so here we will focus on the relationship

5 8 applications of exponential and logarithmic functions - May 01 2023

web we have already explored some basic applications of exponential and logarithmic functions in this section we explore some important applications in more depth including radioactive isotopes and newton s law of cooling

6 5 applications of exponential and logarithmic functions - Nov 26 2022

web oct 3 2022 just as many physical phenomena can be modeled by exponential functions the same is true of logarithmic functions in exercises 75 76 and 77 of section 6 1 we showed that logarithms are useful in measuring the intensities of

earthquakes the richter scale sound decibels and acids and bases ph

4 e exponential and logarithmic functions exercises - Jun 21 2022

web may 2 2023 since the equation of a logarithm is equivalent to an exponential equation the logarithm can be converted to the exponential equation $b^y = x$ and then properties of exponents can be applied to solve for x

6 6 exponential and logarithmic equations openstax - Aug 04 2023

web use logarithms to solve exponential equations use the definition of a logarithm to solve logarithmic equations use the one to one property of logarithms to solve logarithmic equations solve applied problems involving exponential and logarithmic equations figure 1 wild rabbits in australia

4 7 exponential and logarithmic equations mathematics - Jun 02 2023

web may 25 2021 using like bases to solve exponential equations the first technique involves two functions with like bases recall that the one to one property of exponential functions tells us that for any real numbers b $b > 0$ and t $t > 0$ where $b \neq 1$ $b^s = b^t$ if and only if $s = t$

exponential and logarithmic equations cliffsnotes - Dec 28 2022

web an exponential equation is an equation in which the variable appears in an exponent a logarithmic equation is an equation that involves the logarithm of an expression containing a variable to solve exponential equations first see whether you can write both sides of the equation as powers of the same number
