

The American Pageant

Chapter 1:

- The European explorers who followed Christopher Columbus to North America had no notion of founding a new nation, and neither did the first European settlers who founded the thirteen English colonies
- Most learned to live lives unfettered by the tyrannies of royal authority, official religion, and social hierarchies that they had left behind.
- Most came determined to create an agricultural society modeled on English customs.
- They also commonly displayed a willingness to subjugate outsiders. Ex: indians
- The thirteen colonies were very different from one another.
- Diversity reigned in New York through Delaware
- Conflicts began over economic interests, ethnic rivalries, and religious practices
- These issues made it difficult for colonists to imagine that they were a single people with a common destiny
- After 1763, the British government, which was financially overstretched, chose to impose taxes on colonies that had been accustomed to answering mainly to their own colonial assemblies.
- In 1775 most people in the colonies hoped that some kind of accommodation short of outright independence, royal intransigence soon thrust the colonists into a war of independence that neither antagonist could have anticipated just a few years before.
- The war in one sense strengthened ties with Britain, since colonial militias fought triumphantly alongside the British army against their mutual French and Indian enemies
- The British made themselves less indispensable to the American colonies by driving the French from the North American continent
- In the end, Americans won the Revolution, with no small measure of help from the French
- In every colony people shared a strong belief that they were fighting for the "unalienable rights" of "life, liberty, and the pursuit of happiness."
- The majestic ranges of western North America—the Rockies, the Sierra Nevada, the Cascades, and the Coast Ranges—arose much more recently than others (some 13.5 million to 2.5 million years ago).
- The continent was anchored in its northeastern corner by the massive Canadian Shield

American Pageant Ch Review Key:

A Rosetta Key for U.S. History Michael A. Susko, 2023-12-21 This work explores a generational history from America's Colonial period to the United States of contemporary times. A novel historical approach will rely on generational markers every 15th year rather than yearly astronomical dates. This method will make history more accessible and its patterns more apparent. Identified from cultures presented in an earlier volume, the phasings are 1 Invisible Beginnings, 2 Establishment and Testing, 3 Novel Consolidation and Opening Up, 4 Crisis and Creativity, 5 Empire and Inclusion, and 6 Rigidification or Renewal. This history does not seek to hide or obscure the shadow side of America nor does it fail to present beauty and light, especially during the 30s generational phase. One discovery prompted by this generational time chart was to more fully consider the importance of New Spain in understanding U.S. history. A second and related theme is inclusion of the Indigenous whose influence extends to all phases of American history. Come journey with us and experience historical events and people's lives generation by generation and see how they fit into historical phases. Such an awareness the author contends will help us to make the generational choice of our times.
