Marsden, James M. Peters, Tommy W. Wiseman, 2021-04-22 This book examines the discourses on nation building civic identity minorities and the formation of religious identities in school textbooks worldwide It offers up to date practical and scholarly information on qualitative and mixed method textbook analysis as well as the broader context of critical comparative textbook and curriculum analyses in and across selected countries The volume offers unique and empirical research on how internal educational policies and ideological goals of dominant social political and economic groups affect textbook production and the curricular aims in different educational systems worldwide Chapters address the role of school textbooks in developing nationhood the creation of citizenship through school textbooks the complexity of gender in normative discourses and the intersection of religion and culture in school textbooks The US Public and American Foreign Policy Andrew Johnstone, Helen Laville, 2010-06-10 Though often overlooked public opinion has always played a significant role in the development and promotion of US foreign policy and this work seeks to comprehensively assess the impact and nature of that opinion through a collection of historical and contemporary essays The volume evaluates the role of organizations and movements that look to represent public opinion and assesses the nature of their relationship with the government The contributors utilize a number of different approaches to examine this impact including polling data

assessments of the role of the media and the wider consideration of ideas and ideology moving on to examine the specific role played by the public in the policy making and policy promotion process Engaging with new questions as well as approaching old questions from a new angle the work argues that whilst the roles change and the extent of influence varies the power of the public to both initiate and constrain foreign policy clearly exists and should not be underestimated This work will be of great interest to all those with an interest in American foreign policy American politics and American history The American Vision, Modern Times, Active Reading and Note-Taking Guide, Student Workbook McGraw-Hill

Scott,2016-08-18 In this important book Nicholas Hartlep and Daniel Scott s detailed analyses on both visual and historical representations of Asian Americans in textbooks and teacher manuals used in our elementary and secondary schools poignantly tell us that generations of children are growing up being fed this single story about Asian Americans As Hartlep and Scott write Asian Americans have once again been constructed as the good minority that can succeed on their own and be used as a political instrument to shame the Blacks for their underachievement and their fight for equality Over and over again the media has been telling a single story about Asian Americans to the public for the past fifty years The consequence of this fabricated story is that it discourages others even Asian Americans themselves from believing in the validity of their struggles Linshi 2014 p 1 Telecourse Study Guide Hooyman,Nancy R.
