## 2015 Chapter Round:

**The Broken Whistle** Pedro Israel Orta,2024-02-19 Now here I was post Snowden relying on a system President Obama Congress and IC leaders had touted as successful and functional But was it truly working My case exposed it as nothing more than a sham Would the CIA and the IC attempt to rectify the situation Did they genuinely desire to fix the broken system Or would they persist in employing their illegal bullying tactics to silence whistleblowers I was determined to take action offering them an opportunity to correct their behavior From The Broken Whistle The Broken Whistle is a searing expos that unveils a chilling chapter in American history a narrative meticulously recounted by Pedro Israel Orta Plunged into the heart of power and deception Orta emerges as a force to be reckoned with On September 23 2019 his single Twitter thread ignited a tempest tearing through the sinister underbelly of the Intelligence Community Whistleblower Protection Act ICWPA which had been perverted for political ends In this gripping account Orta fearlessly shines a light on a corrupt system that brazenly weaponized the very process designed to uphold truth and accountability As the pages unfold Orta unflinchingly reveals how the Intelligence Community IC whistleblowing process was perverted to target a sitting president while genuine whistleblowers endured unimaginable torment and abandonment With chilling detail and unyielding determination Orta pulls back the curtain on the U S National Security Bureaucratic State exposing the rampant abuse of power by the Deep State shielded by Congress s deafening silence Delving deep into the heart of darkness Orta uncovers the unsettling saga triggered by the enigmatic Ukraine whistleblower whose disclosures unleashed a political storm despite falling outside the jurisdiction of ICIG and DNI as confirmed by the Department of Justice These allegations detached from intelligence activities were shamelessly exploited an elaborate ruse orchestrated to manipulate public opinion and orchestrate the impeachment of a president Through the pages of The Broken Whistle Orta lays bare his own harrowing journey navigating the treacherous corridors of the Central Intelligence Agency Within these walls truth becomes an enemy and those who dare to speak out face ruthless retribution and termination As Orta s unwavering voice rises above the cacophony of corruption readers are led on an odyssey that unveils a bureaucratic machine bent on crushing dissent and preserving its shadowy secrets The Broken Whistle is an unapologetic chronicle of one man s fight for justice a clarion call that reverberates through the darkest corners of power Prepare to be captivated by Orta s unflinching courage as he peels back the layers of deception exposing a broken system that has forsaken its sacred duty

*Chapters of Dependency Grammar* András Imrényi,Nicolas Mazziotta,2020-02-06 Was Tesni re the founding father of dependency grammar or merely a culmination point in its long history Leaving no doubt that the latter position is correct Chapters of Dependency Grammar tells the story of how dependency oriented grammatical description developed from Antiquity up to the early 20th century From Priscian s Rome to Dmitrievsky s Russia from the French Encyclopaedia to Stephen W Clark s school grammars in 19th century America it is shown how the concept of dependencies asymmetric word to word relations surfaced again and again assuming a central place in syntax A particularly intriguing aspect of the storyline is that even without any direct contact or influence authors were making key breakthroughs in similar directions In the works of S müel Brassai a Transylvanian polymath and Franz Kern a German grammarian the first dependency trees appear in 1873 and 1883 respectively predating Tesni re s stemmas by several decades

2007, Emerging Powers, Global Justice and International Economic Law Andreas Buser,2021-01-04 The book assesses emerging powers influence on international economic law and analyses whether their rhetoric of reforming this unjust order translates into concrete reforms The questions at the heart of the book surround the extent to which Brazil Russia India China and South Africa individually and as a bloc BRICS provide alternative regulatory ideas to those of Western States and whether they are able to convert their increased power into influence on global regulation To do so the book investigates two broader case studies namely the reform of international investment agreements and WTO reform negotiations since the start of the Doha Development Round As a general outcome it finds that emerging powers do not radically challenge established law Third World rhetoric mostly does not translate into practice and rather serves to veil economic interests Still emerging powers provide for some alternative regulatory ideas already leading to a diversification of international economic law As a general rule they tend to support norms that allow host States much policy

space which could be used to protect and fulfil socio economic human rights especially but not only in the Global South
