Digital adaptation kit for postnatal care World Health Organization, 2025-07-19

Digital Adaptation Kits (DAKs) are part of WHO's SMART guidelines initiative. This aims to ensure that the content of WHO's evidence based guidelines is accurately reflected in the digital systems being used at country level. The DAKs provide software neutral operational and structured documentation based on WHO recommendations related to clinical care, health systems and use of data to systematically and transparently inform the design of digital systems. Standard components of each DAK include: 1 linked health interventions and recommendations, 2 generic personas, 3 user scenarios, 4 generic business processes and workflows, 5 core data elements mapped to standard terminology codes (e.g. the international classification of diseases), 6 decision support, 7 programme indicators and 8 functional and non functional requirements. This DAK focuses on PNC and aims to provide a common language across various audiences (maternal, newborn, infant and child health and other programme managers, software developers and implementers of digital systems) to ensure a common understanding of the appropriate health information content within a defined health programme area as a mechanism to catalyse the effective use of these digital systems.
