- The second primary research question was "when you completed the first survey in this study, how likely did you think it was that the 8<sup>th</sup> amendment referendum would pass?

### 2. When did participants complete the study?

#### Answers:

- Participants first completed the survey in May 2018

### 3. List three questions that measured engagement with the 8<sup>th</sup> amendment after the referendum was held?

#### Answers:

- How important is the outcome of the referendum to you?
- How often in the past three months have you had discussions with family or friends concerning the 8<sup>th</sup> amendment referendum?
- Did you formally campaign on either side of the referendum?
- How did "yes" and "no" voters differ in terms of hindsight bias?

#### Answers:

- Yes and no voters differ in terms of hindsight bias because when they were asked to remember their predictions later, no voters recalled a higher estimated probability which demonstrated a classic hindsight bias effect but yes voters did not.

### 4. How did emotions affect hindsight bias?

#### Answers:

- The emotions affected hindsight bias because the hindsight bias was affected by informal campaigning and the participant's degree of surprise and emotion on hearing the results of the questions. Participants who had stronger feelings of surprise and emotionality expressed the opposite of the traditional hindsight bias.
