Lemert, 2015-11-17 The voices of famous and lesser known figures in America s quest to reduce poverty are collected for the first time in this comprehensive historical anthology The book traces the most important ideas and contributions of citizens activists labour leaders scholars politicians and governmental agencies to ensure American citizens the basics of food housing employment education and health care The book follows the idea of poverty reduction from Thomas Paine s agrarian justice to Josiah Quincy s proposal for the construction of poorhouses from the Freedmen s Bureau to Sitting Bull s demand for money and supplies from Coxe s army of the unemployed to Jane Addams s Hull House from the Civil Works Administration to Dr Martin Luther King Jr s call for an Economic Bill of Rights and from William Julius Wilson s universal programme of reform to George W Bush s armies of compassion *Do Morals Matter?* Joseph S. Nye Jr., 2019-12-02 Americans constantly make moral judgments about presidents and foreign policy Unfortunately many of these assessments are poorly thought through A president is either praised for the moral clarity of his statements or judged solely on the results of their actions In *Do Morals Matter* Joseph S

Nye Jr one of the world s leading scholars of international relations provides a concise yet penetrating analysis of the role of ethics in US foreign policy during the American era after 1945 Nye works through each presidency from FDR to Trump and scores their foreign policy on three ethical dimensions of their intentions the means they used and the consequences of their decisions Alongside this he also evaluates their leadership qualities elaborating on which approaches work and which ones do not Regardless of a president s policy preference Nye shows that each one was not fully constrained by the structure of the system and actually had choices He further notes the important ethical consequences of non actions such as Truman s willingness to accept stalemate in Korea rather than use nuclear weapons Since we so often apply moral reasoning to foreign policy Nye suggests how to do it better Most importantly presidents need to factor in both the political context and the availability of resources when deciding how to implement an ethical policy especially in a future international system that presents not only great power competition from China and Russia but a host of transnational threats the illegal drug trade infectious diseases terrorism cybercrime and climate change
