N2 Drawing Previous Question Paper:

Graph Drawing Giuseppe Liotta, 2004-03-04 The 11th International Symposium on Graph Drawing GD 2003 was held on September 21-24, 2003 at the Università degli Studi di Perugia, Perugia, Italy. GD 2003 attracted 93 participants from academic and industrial institutions in 17 countries. In response to the call for papers, the program committee received 88 research submissions describing original research and/or system demonstrations. Each submission was reviewed by at least 4 program committee members and comments were returned to the authors. Following extensive e-mail discussions, the program committee accepted 34 long papers (12 pages each in the proceedings) and 11 short papers (6 pages each in the proceedings). Also, 6 posters (2 pages each in the proceedings) were displayed in the conference poster gallery. In addition to the 88 submissions, the program committee also received a submission of special type, one that was not competing with the others for a time slot in the conference program and that collects selected open problems in graph drawing. The aim of this paper, which was refereed with particular care and UNCHANGED two rounds of revisions, is to stimulate future research in the graph drawing community. The paper presents 42 challenging open problems in different areas of graph drawing and contains more than 120 references. Although the length of the paper makes it closer to a journal version than to a conference extended abstract, we decided to include it in the conference proceedings so that it could easily reach in a short time the vast majority of the graph drawing community.

Graph Drawing Patrick Healy, 2006-01-25 This book constitutes the thoroughly refereed post-proceedings of the 13th International Symposium on Graph Drawing (GD 2005) held in Limerick, Ireland, in September 2005. The 38 revised full papers and 3 revised short papers presented together with 3 software demos, 8 posters, and a report on the graph drawing contest were carefully selected during two rounds of reviewing and improvement from 101 submissions. All current aspects in graph drawing are addressed, ranging from foundational and methodological issues to applications for various classes of graphs in a variety of fields. Also included is a report on the Workshop on Network Analysis and Visualisation held in conjunction with the conference.
