Large-Scale Studies in Mathematics Education James A. Middleton, Jinfa Cai, Stephen Hwang, 2015-05-05 In recent years funding agencies like the Institute of Educational Sciences and the National Science Foundation have increasingly emphasized large scale studies with experimental and quasi experimental designs looking for objective truths Educational researchers have recently begun to use large scale studies to understand what really works from developing interventions to validation studies of the intervention and then to efficacy studies and the final scale up for large implementation of an intervention Moreover modeling student learning developmentally taking into account cohort factors issues of socioeconomics local political context and the presence or absence of interventions requires the use of large data sets wherein these variables can be sampled adequately and inferences made Inroads in quantitative methods have been made in the psychometric and sociometric literatures but these methods are not yet common knowledge in the mathematics education community In fact currently there is no volume devoted to discussion of issues related to large scale studies and to report findings from them This volume is unique as it directly discusses methodological issue in large scale studies and reports empirical data from large scale studies *Results and Interpretations of the 2003 Mathematics Assessment of the National Assessment of Educational Progress* Peter Kloosterman, Frank K. Lester, 2007 With the enactment of No Child Left Behind and its sanctions for schools that fail to make adequate yearly progress NAEP National Assessment of Educational Progress results are no longer afterthoughts Instead the results generate headlines and are at the forefront of discussion of what is working in schools and what needs to be changed As the scrutiny of NAEP results has increased the National Center for Education Statistics has provided more detailed reporting of the results and has increased the level of security of the assessment items Both the level of detail and the concern for item security have played prominent roles in the development of this book The foregoing changes make understanding NAEP and its consequences crucial for any educator This book provides a background on NAEP looks at 2003 mathematics achievement in different content areas discusses data on who is teaching mathematics in the United States and examines students perception of mathematics Additionally the book deals with results from NAEP broken down by race ethnicity and by gender analyses certain NAEP results with a focus on what is actually measured by those results and examines changes in NAEP over the years and what those changes mean for NAEP as a tool for understanding student learning *The ERIC Review*, 1991 Provides information on programs research publications and services of ERIC as well as critical and current education information **Using Assessment to Improve Middle-grades Mathematics Teaching & Learning** Carol S. Parke, 2003 Using tasks that require students to think deeply about problem situations and communicate their mathematical understanding helps teachers determine students levels of proficiency and gain insight into students mathematical thinking This book and its companion CD include sixteen mathematics tasks that are appropriate for grades 4 through 8 and can be used for instruction and assessment purposes

Descriptions of six activities illustrating various uses of the tasks and materials are also included

Results from the Sixth Mathematics Assessment of the National Assessment of Educational Progress Patricia Ann Kenney, Edward A. Silver, 1997 The National Assessment of Educational Progress NAEP provides data about what children know and can do with the goal of using this information to improve education This book contains interpretive reports based on results from the mathematics assessments conducted by the NAEP regarding 1 the cognitive performance of students at grades 4 8 and 12 on multiple choice regular constructed response and extended constructed response items 2 students responses to a variety of background questions dealing with their beliefs and feelings toward mathematics and their participation in various forms of classroom activity and 3 teachers responses to various background questions dealing with the nature of their mathematics instruction The results are summarized for the different grade levels and subgroups of students by gender and race ethnicity Chapters include 1 Learning about NAEP Information Concerning the Sixth Mathematics Assessment Patricia Ann Kenney 2 NAEP Mathematics 1990 1992 The National Trial State and Trend Assessments John A Dossey and Ina V S Mullis 3 NAEP Findings Regarding Race Ethnicity and Gender Affective Issues Mathematics Performance and Instructional Context Edward A Silver Marilyn E Strutchens and Judith S Zawojewski 4 NAEP Findings Regarding the Preparation and Classroom Practices of Mathematics Teachers Mary Montgomery Lindquist 5 What Do Students Know about Numbers and Operations Vicky L Kouba Judith S Zawojewski and Marilyn E Strutchens 6 What Do Students Know about Measurement Patricia Ann Kenney and Vicky L Kouba 7 What Do Students Know about Geometry Marilyn E Strutchens and Glendon W Blume 8 What Do Students Know about Data Analysis Statistics and Probability Judith S Zawojewski and David S Heckman 9 What Do Students Know about Algebra and Functions Glendon W Blume and David S Heckman and 10 Learning from NAEP Looking Back and Looking Ahead Edward A Silver JRH

Results and Interpretations of the 1990 Through 2000 Mathematics Assessments of the National Assessment of Educational Progress Peter Kloosterman, Frank K. Lester, 2004 Often referred to as The Nation's Report Card the mathematics assessments of the National Assessment of Educational Progress NAEP have come to be regarded by many policymakers as the primary yardstick by which to judge our schools success in meeting national expectations This monograph reports and interprets trends in NAEP mathematics data collected between 1990 and 2000

National Standards in American Education Diane Ravitch, 2011-05-01 Updating her highly acclaimed book Diane Ravitch presents the latest information on the debate over national standards and assessments Ensuring a rigorous liberal education for all is asking a lot in a contentious democracy like ours Is it possible to educate every child to the same high standards Is it politically feasible Will raising standards help or hinder poor minority children Ravitch sees where these land mines are buried and her book provides an indispensable diagram for getting around them The Wall Street Journal A simple message lies at the heart of Diane Ravitch's new book If clear and consistent goals of learning could be set for all American children rich and poor gifted and ordinary then all of these children would end up better educated than they

now are likely to be The New York Times No one could be more qualified to write a book about national standards in education than Diane Ravitch The Washington Times The ongoing debate about national education standards and assessment in the U S has created as much confusion as it has solutions What has been needed is an examination of the educational historical political and social issues related to the development of such standards Ravitch provides such a foundation Choice

Colorado Student Assessment Program ,1999 Getting Into the Mathematics Conversation Portia C. Elliott,Cynthia M. Elliott Garnett,2008 Far from a run of the mill readings book Getting into the Mathematics Conversation is an outstanding compendium of the very best of the NCTM school journals offerings on the broad subject of communication in the mathematics classroom It spans all grade levels and targets all communication forms listening and speaking reading writing and multiple forms that a teacher might wish to develop in students **Technology, Instruction, Cognition, and Learning** ,2004 **Journal for Research in Mathematics Education** ,2008 National and State Perspectives on Performance Assessment and Students with Disabilities Martha L. Thurlow,1994 This booklet examines national and state educational reform in the 1990s noting the ways in which performance assessment is being presented as a mechanism of reform Three reform initiatives are examined national education goals standards and reform legislation In conjunction with these reform movements new methods of assessment are being called for Large amounts of money and excitement have surrounded national and state reform activities that either directly or indirectly are connected to the idea of performance based assessments Major national data collection efforts have changed to adopt the performance assessment approach including the National Assessment of Educational Progress and the National Adult Literacy Survey Participation of students with disabilities in national assessments is problematic constrained by the lack of accommodations The use of performance assessment is also increasing in statewide assessment programs requiring that accommodations and adaptations for students with disabilities be considered There is some evidence that the use of performance assessments may not benefit students with disabilities and to date their use has not increased the participation of students with disabilities but they hold the possibility of more equitable student measurement Contains 43 references JDD **Introduction to Connections** Cynthia W. Langrall,2008 NCTM s Process Standards support teaching that helps students develop independent effective mathematical thinking The books in the Heinemann Math Process Standards Series give every middle grades math teacher the opportunity to explore each standard in depth The series offers friendly reassuring advice and ready to use examples to any teacher ready to embrace the Process Standards In Introduction to Connections Cynthia W Langrall Sherry L Meier Edward S Mooney and Honi J Bamberger familiarize you with ways to help students see the relationships between and among mathematical skills and content They offer an array of entry points for understanding planning and teaching including strategies that help students build upon and link mathematical thinking across units by recognizing connections among math concepts real world applications and other content areas The book and accompanying CD ROM are filled with activities that

are modifiable for immediate use with students of all levels customizable to match your specific lessons In addition a correlation guide helps you match the math content you teach with the mathematical processes it utilizes If your students aren't making mathematical connections or if you're simply looking for ways to work the connections standard into your curriculum read dog ear and teach with Introduction to Connections And if you'd like to learn about any of NCTM's process standards or you're looking for classroom tested ways to address them look no further than Heinemann's Math Process Standards Series You'll find them explained in the most understandable and practical way from one teacher to another
