S. Miles,1998-09-01 The South Pacific archipelago of Vanuatu simultaneously experienced the two major types of colonialism of the modern era British and French the only instance in which these colonial powers jointly ruled the same people in the same territory over an extended period of time This in addition to its small size and recent independence 1980 makes Vanuatu an ideal case study of the clash of contemporary colonialism and its enduring legacies At the same time the uniqueness of Melanesian society highlights the singular role of indigenous culture in shaping both colonial and postcolonial political reality With its close attention to global processes *Bridging Mental Boundaries in a Postcolonial Microcosm* provides a fresh comparative approach to an island state that has most frequently been examined from an ethnographic or area studies perspective William F S Miles looks at the long term effects of the joint Franco British administration in public policy political disputes and social cleavages in post independence Vanuatu He emphasizes the strong imprint left by condocolonialism in dividing ni Vanuatu into Anglophones and Francophones but also suggest how this basic division is being replaced or overlaid by divisions based on urban or rural residence traditional or modern employment and disparities between the status and activities of men and women As such this volume is more than an analysis of a unique case of colonialism and its effects it is

an interpretation of the evolution of an insular society beset by particularly convoluted precolonial colonial and postcolonial fractures Based principally on research conducted in 1991 and following a key change in Vanuatu s government a subsequent visit in 1992 the analysis is enriched by regular comparisons between Vanuatu and other colonized societies where the author has carried out original research including Niger Nigeria Martinique and Pondicherry Extensive interviews with ni Vanuatu are integrated throughout the text presenting islanders views of their own experience Multi-Dimensional You Elaine Seiler,2012 AN ENERGETIC JOURNEY YOURS AND THE PLANETS Humankind is evolving the world we know is changing This book is like a very special pair of eyeglasses enabling you to see and manage this new world differently with expanded vision and skills beyond your five senses in a way you have never done before Elaine Seiler Multi Dimensional YOU will catalyze your evolution and help you recognize and more easily navigate the stages through which you will evolve You will gain CLARITY about what is occurring on the planet today in 2012 and beyond UNDERSTANDING of the changes taking place in and around you SKILLS to navigate this less physical and more vibratory world TOOLS that function in an invisible realm HOPE as you face an undetermined future TRUST in your own knowingness CONFIDENCE in your choice making abilities and INNER PEACE as you face the inevitable shifts ahead Let Seiler be your GUIDE Say good by to overwhelm confusion and anxiety as your face the future Embrace the fullness of The Multi Dimensional YOU Accurate in depth knowledge and passion You owe it to yourself to read this book Easy to read and put into practice I recommend it highly and with out reservation Alexander Loyd PhD ND acclaimed author of The Healing Code Architectural Association Projects Review 04/05 Architectural Association (Great Britain). might be for good or ill are shaped by the interaction of localised experience and the wider forces of transformation Local Places Global Processes examines how these relationships have been shaped in Britain over time in three ways First through essays addressing influential ways of understanding and debating questions of the state of nature These are complemented by case studies on conservation landscape change and management and how perceptions of environmental change have emerged or been discarded over time Chapters also draw on a series of site based workshops that brought together historians landscape managers and artists to discuss and reflect on particular sites Wicken Fen in Cambridgeshire owned by the National Trust and the first British nature reserve the Quantock Hills Area of Outstanding Natural Beauty in Somerset England s first AONB and a landscape enriched by Romantic association and the landscape of Kielder Water and Forest a land of superlatives in Northumberland in north eastern England the largest planted forest and artificial lake in northern Europe The multi disciplinary approach draws together the exchanges artworks and writing assembled at these workshops and afterwards This opens up how being in a place and engaging with ideas attached to it shape perceptions of the environment It provides resources with which landscape managers can think about their tasks and engage various publics in discussion about future environments in light of these histories of place Rather than a history of these three places this is history written from them **British Wildlife** ,2004 *Journal of Biological Education* ,1993 *Choice* ,1993
