

# Paper 1 Question 3 - May 2025 - Model Responses

## Response A

Wyndham structures the extract in a deliberately disorienting and suspenseful way to grip the reader from the outset and build a growing sense of unease. The extract begins with a chronological disruption, as the narration begins after the strange event has already started – ‘Then 10.17 that night, information about Midsich became sporadic.’ This immediate shift into fragmented storytelling, described using the word ‘sporadic’, marks the breakdown of communication and normality in the village. The lack of linear clarity intrigues the reader and encourages them to piece together the mystery much like the characters in nearby towns are trying to.

Wyndham then increases tension by using a cumulative structure, listing failed attempts to reach Midsich: the bus disappears, the truck sent to investigate it also vanishes, then the fire engine, the police car, and finally a lone constable. The repetition and escalation of these failures heighten the suspense. Each time a figure is sent, they are absorbed into silence, and this structural pattern effectively builds dread in the reader. The ellipsis at the end of the paragraph – ‘no more was heard of him, either...’ – leaves the sentence open-ended, allowing the unease to linger and drawing the reader further into the mystery.

As the extract shifts to the morning of the 27th, the writer uses juxtaposition between Midsich and the surrounding world to emphasise its unnatural stillness. Structurally, this contrast acts as a pivot point: the outside world continues with its normal rhythm, described through natural sounds (the barking and alarm clocks), while Midsich is suspended in eerie silence. The short, declarative sentence ‘For Midsich lay unbroken’ serves as a structural turning point, making clear that this is no ordinary sleep – something has possessed or overcome the village.

The narrative then widens slightly to show the increasing efforts of the outside world to make contact.

Following the journey of the Post Office van, the writer zooms in on one small incident, which initially seems insignificant, but becomes central to the mystery. The van’s approach, slow and cautious, is described in minute detail, building anticipation structure – the reader senses something is about to be uncovered. This careful progression from broad mystery to close, physical danger sustains the reader’s attention.

The climax of the extract is carefully structured: the van encounters a crash scene, and just as the reader begins to visualise the physical effects of whatever force is at play, a moment of apparent action occurs – the van veers off, not yet understanding what has happened. The reader is led to expect resolution but instead receives further confusion.

Finally, the extract ends with a shocking and eerie twist: the mail van driver walks forward and collapses without warning. This sudden moment of silence and stillness – ‘He quietly folded up and dropped to the ground’ – is all the more disturbing for its quietness. The text ends with the surviving driver staring at the frozen passengers and racing. This abrupt structural shift from mystery to threat provides a chilling ending that leaves the reader desperate for explanation. Ending on a moment of action and unexplained fear is a classic structural technique to sustain interest and create further suspense.

In summary, Wyndham uses a series of structural choices – fragmented narrative, repetition, contrast, zooming in, and an unresolved climax – to draw the reader into a growing mystery. The gradual progression from confusion to fear is what keeps the reader gripped throughout.

Compare the two model answers. Which do you think is better? Make notes.

## Response B

At the start of the extract, the writer deliberately withdraws direct access to Midsich and instead focuses on the fragmented accounts of its disappearance, immediately creating a sense of mystery and disorientation. The use of the phrase ‘information about Midsich became sporadic’ suggests a breakdown in narrative continuity as well as communication. This structural decision places the reader in the same confused and powerless position as the characters in nearby towns. Rather than beginning with action or character, Wyndham constructs a puzzle, listing increasingly alarming failures of contact – the bus, the truck, the fire engine, the police car, and finally a lone constable. This escalating list, with each attempt swallowed by silence, builds suspense and tension incrementally, while also giving the reader a sense of time slowing down or stalling – reflecting the village’s unnatural state.

The middle of the extract marks a major structural shift, moving from external confusion to a quiet, eerie description of the village itself. Wyndham zooms in on Midsich in the early morning and creates a disturbing contrast between it and the surrounding world. In Oggley normal life continues – clocks chime, chicks are cheeped, birds sing. In Midsich, by contrast, chicks ‘settled on until they ran down’, and ‘no birds sang’. This moment of juxtaposition shifts the focus from missing people to something more sinister – a suspended world. Structurally, the contrast slows the narrative pace, as the action falls and the reader lingers on Midsich’s silence. The quiet is unnerving, and the extensive listing of still creatures (horses, cows and sheep, pigs, its poultry, its lambs, moles and mice) maintains a growing sense of unease. The silence acts as a kind of turning point: it suggests the event is not just physical disappearance but something deeply unnatural.

At the end of the extract, Wyndham introduces a brief moment of action with the arrival of the Post Office van and, finally, the mail van. Structurally, this return to movement contrasts with the earlier stillness and briefly suggests that the mystery might be solved – yet this hope is abruptly shut down. As the driver of the mail van approaches the bus, he suddenly collapses with ‘no warning’, and the reader learns the passengers are frozen, motionless. This abrupt shift from movement to paralysis is structurally jolting and deeply unsettling. The final moment, in which the remaining driver ‘swallowed Reality’ and fled, ends the extract with a sense of panic and retreat, mirroring the reader’s own desire to escape the chilling truth that something entirely inexplicable is happening.

In conclusion, Wyndham takes the reader on a carefully structured journey from confusion to quiet horror. He begins with fragmented, external perspectives to build suspense, then shifts inward to eerie stillness and finally erupts into sudden danger. These deliberate changes in narrative focus, pace, and viewpoint guide the reader through rising tension and mystery, keeping them engaged and unnerved. The transitions between these stages – from disorientation, to observation, to confrontation – are key to how the structure maintains interest and builds dread throughout the extract.
