Angola slowly recovering from a twenty seven year civil war is becoming a regional super power in southern Africa. This rise can be attributed to oil diamonds a battle tested armed forces and a political system that is dominated by one party the Movimento Popular de Libertado de Angola the Popular Movement for the Liberation of Angola MPLA. Problems remain to be solved. The vast wealth is in the control of the elite while the vast majority of the people live on less than two dollars per day. Corruption is rife the health and education system in shambles landmines remain a festering problem and the opposition is intimidated and split into various factions. President Eduardo dos Santos who has ruled Angola for almost thirty eight years has opted not to run for re-election in the August 2017 elections. Instead his hand picked successor João Lourenço was elected president. Interestingly dos Santos has not surrendered his presidency of the party. This third edition of *Historical Dictionary of Angola* contains a chronology an introduction appendixes and an extensive bibliography. The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture. This book is an excellent resource for students researchers and anyone wanting to know more about Angola. **Trade Policy Review**, 2020
