ECRM2014-Proceedings of the 13th European Conference on Research Methodology for Business and Management Studies Dr Martin Rich, Dr Anne Brown, 2014-06-16 *Mass Tourism in a Small World* David Harrison, Richard Sharpley, 2017-05-26 This new book reviews all aspects of the phenomenon of mass tourism. It covers theoretical perspectives including political economy, ethics, sustainability and environmentalism, the historical context and the current challenges to domestic, intra-regional and international mass tourism. As tourism and tourist numbers continue to grow around the world, it becomes increasingly important that this subject is studied in depth and best practice applied in real-life situations. The Knights Templar in Popular Culture Patrick Masters, 2022-02-25 From the Arthurian epic poem *Parzival* to Dan Brown's *The Da Vinci Code*, *Indiana Jones* and the *Last Crusade* and the *Assassin's Creed* video game series, the Knights Templar have captivated artists and audiences alike for centuries. In modern times, the Templars have featured in many narrative contexts, evolving in a range of contrasting story roles: the grail guardian, the heroic knight, the villainous knight, and the keeper of conspiracies. This study explores why these gone but not forgotten warrior monks remain prominent in popular culture, how history influenced the myth, and how the myth has influenced literature, film, and video games.

Travel, Tourism, and Identity Gabriel R. Ricci, 2017-09-29 *Travel, Tourism, and Identity* addresses the psychological and social adjustments that occur when people make contact with others outside their social, cultural, or linguistic groups. Whether such contact is the result of tourism seeking, exile, or relocating abroad, the volume's contributors demonstrate how one's identity, cultural assumptions, and worldview can be brought into question. In some cases, the traveller finds that bridging the social and cultural gap between himself and the new society is fairly easy. In other cases, the traveller discovers that reorienting himself requires absorbing a new cultural history and traditions. The contributors argue that making these adjustments will surely enhance the traveller's

or tourist's experience otherwise the traveller or tourist will be at risk of becoming a marginalized figure one disconnected from the society that surrounds him. This latest volume in the Culture Civilization series features a collection of essays on travel and tourism. The essays cover a range of topics from historical travels to modern social identities. They discuss ancient travels, contemporary travels in Europe, Africa and sustainable eco tourism and the politics of tourism. Essays also address experiences of Grenada's Spice Island identity and the effects of globalization and migrations on personal identity.

Kit: Fashioning the Sporting Body Jean Williams, 2017-10-02 This is the first edited collection of its kind to analyse the distinct but overlapping topics of dress, costume, sport and leisure history. For researchers of bodily adornment and movement, sport and costume history are both primarily concerned with industrial practice and embodied experience. The ways in which bodies are adorned, embellished and clothed or revealed highlights the hybrid nature of dress history encompassing as it does the everyday clothing solutions of the mass of people and the unusual or more ceremonial aspects of costume as well as elite high fashion. Although this is as yet an under-researched area there are an increasing number of fashion and clothing undergraduate and postgraduate courses that specialise in sport and leisurewear. This publication is intended to give an introductory overview of the historical and contemporary issues as it does for the growing number of sport marketing and sports studies courses concerned with dress, costume history and branding. This book was published as a special issue of *Sport in History*.
