Patient Safety in Clinical Practice Paul Buka, 2024-09-09 This book introduces the core knowledge and skills for comprehensive risk assessment and management in healthcare settings and applies relevant ethical and legal principles. It emphasises that patient safety requires a holistic and inclusive approach to maximise patient wellbeing in a diverse population with known health inequalities. Exploring the concept of avoidable risks which may be posed to the health and wellbeing of individuals, the public and communities within a given healthcare context, this book explores potential system failures and human factors while providing an insight into the significance of the relationship between a culture of care and patient safety. It includes chapters on the ethical and legal framework related to patient safety, the equality, diversity and inclusion context, advocacy and empowerment, risk and human factors, as well as accountability and harm. Notably, there is also a focus on two in-depth chapters which explore patient safety in relation to medication management and end of life care. Throughout the book, there are numerous reflection points, examples of case law and illustrative case studies and thinking points to help the reader apply key principles to aid their learning and think critically. *Patient Safety in Clinical Practice* offers a fresh insight into the link between patient safety and holistic care. It is aimed at nursing and allied health students and professionals, particularly those undertaking study related to assessing and planning care, as well as law, ethics and professional issues.

Exploring key concepts, theories, practices and debates within both the digital and public humanities, the handbook also assesses how these two areas are increasingly intertwined. Key questions of access, ownership, authorship and representation link the individual sections and contributions. The handbook includes perspectives from the Global South and presents scholarship and practice that engage with a multiplicity of underrepresented publics including LGBTQ communities, ethnic and linguistic minorities, the incarcerated and those affected by personal or collective trauma.
