Retrospective Columns Samuel Holzman,2025-10-07 An innovative study of how and why ancient Greek builders sometimes combined older and contemporary carving styles when making capitals The Ionic order of ancient Greek architecture gradually evolved over the course of the sixth century BCE In Retrospective Columns Samuel Holzman examines an overlooked group of nine Ionic monuments that are varied in design but have capitals that combine the pillow-like convex volutes of sixth century Ionia on one side and the crisp concave volutes of more contemporary styles on the other Such hybrid

capitals had a surprising longevity and range spanning Greece Italy and Turkey between 550 and 250 BCE Why did ancient Greek builders sometimes revert to older carving styles and combine them with newer ones One old theory is that outdated styles were a labor saving shortcut a notion Holzman puts to rest with a marble carving experiment that recreated the volutes of one capital Rather he argues that hybrid capitals represented an important parallel to other trends in Greek art notably bilingual Attic vases which combined older and newer painting techniques for sheer visual delight By studying the chiaroscuro carving effects and painted polychrome decoration of Ionic architecture Holzman shows that ancient viewers were primed to look for differences in such details which the book illustrates with many original drawings and diagrams Exploring works of Ionic architecture from different periods in Ionia the Cyclades Athens and the Northern Aegean Retrospective Columns demonstrates that their builders ultimately returned to outmoded elements to establish continuity with the past reinforcing community identities and architectural tradition Army MARS at 90 William Sexton, 2016 There is an obscure agency in the Defense Department with the unique distinction of costing the taxpayers nothing for its national security role The members wear no uniforms don't carry weapons and work from home They are specially licensed amateur radio operators who serve part time in the Army and Air Force Military Auxiliary Radio Systems known by the acronym MARS They're the heroes of MARS at 90 a small 96 pages illustrated non fiction work In the nine decades covered the volunteer members pitched in to assist the military in hurricanes and other natural calamities and most memorably during the wars in Korea Vietnam and Iraq Their new mission is keeping the country connected in case the internet and other communications are severed by hostile or natural action It's the only survivable backup the U S has Paperbound Books in Print, 1992 Mergent International Manual, 2001 Studies in the History of Services and Construction James Campbell, Amy Boyington, Yiting Pan, Nina Baker, Michael Heaton, Michael Tutton, David Yeomans, Henrik Schoenefeldt, Michael Driver, 2018 Building services are often overlooked in the history of architecture and engineering This volume presents 41 papers presented at the Fifth Annual Conference of the Construction History Society held at Queens College Cambridge from 6-8 April 2018 which cover a wide variety of topics on aspects of construction history and building services **Motor Cycling and Motoring**, 1984 Understanding Cybersecurity Gary Schaub, Jr., 2018-01-29 Over the last decade the internet and cyber space has had a phenomenal impact on all parts of society from media and politics to defense and war Governments around the globe have started to develop cyber security strategies governance and operations to consider cyberspace as an increasingly important and contentious international issue This book provides the reader with the most up to date survey of the cyberspace security practices and processes in two accessible parts governance and operations Suitable for a wide ranging audience from professionals analysts military personnel policy makers and academics this collection offers all sides of cyberspace issues implementation and strategy for the future Gary Schaub is also the co editor of Private Military and Security Contractors 2016 **Autocar & Motor**, 1991-11 **The Autocar**, 1978 Journal
