Scott Wright,1997-07-29 This handbook is intended to give the broadcast industry an authoritative guide to the Radio Data
System RDS also called Radio Broadcast Data System RBDS Since the standard s adoption about 700 stations have begun
broadcasting RDS in the United States There is a wide variety of encoding equipment with prices starting as low as 400 and
over 30 models of RDS receivers have been introduced for cars home receivers portable and even PC receivers Automobile
manufacturer s such as General Motors Ford Audi and Porsch now offer RDS on new vehicles Yet despite all the support
equipment in place the FM broadcaster has been reluctant to implement and utilize this service mainly because of a lack of
understanding of what RDS can do for the station This book finally provides the information required to understand RDS and
its possibilities on a variety of levels so that everyone involved in radio can make the most of it Station owner program
director salesperson and talent alike will find the information he or she requires to maximize the possibilities of this new
technology Each feature of the system is explained in terms of its practical implementation at the station and interviews with
broadcasters currently using the system add a hands on perspective Scott Wright is a recognized pioneer in RDS
development As the designer of Delco Electronics first RDS receiver he has been extremely active in the development of the
RDS standard in the US and in efforts to educate the broadcast community about its potential He has represented Delco at
the European Broadcasting Union s EBU RDS Forum and is currently the Chairman of the National Radio Systems
Committee RBDS Subcommittee the US standard setting body He is also a member of the Electronics Industries Association s
