Tippin, 2025-03-31 This book takes seriously the late Victorian periodical essay treating it with the same formal care that another study might give to Thomas Hardy's poetry or Henry James's prose It also attends to the essay's periodical context advertisements news serial publication material transience and burying ubiquity It challenges the distinction between serious literature and mere articles that appear in dailies weeklies and monthlies And then it argues that to understand the periodical essay between 1880 and 1920 is to understand the transitions of that period more clearly from belief to doubt from country to city from thick time to clock time The periodical essay is implicated in all these transitions In making this argument this book makes special reference to three authors Oscar Wilde G K Chesterton and Virginia Woolf All three command very different audiences and this book suggests an association between the three as periodical essayists From

White people to change Black people must prioritize their own prosperity power and self determination by navigating challenging and exiting racist systems a radical argument from a Harvard behavioral scientist It's time to face an

inconvenient truth our current approach to fighting racism is just not working For a brief moment following the murder of George Floyd it seemed as though the country had finally acknowledged the destructive legacy of slavery and White supremacy and had committed to putting things right Now a horde of prominent voices many of whom professed to be antiracist allies are pulling back cutting support and defunding programs that sought to level the playing field Harvard psychologist Robert Livingston contends that racism operates like an addiction for so many White people hard to admit and even harder to quit Given their unwillingness to kick the habit where does this leave Black people In this provocative book Livingston has flipped the script asking How can Black people attain prosperity and peace of mind despite the enduring presence of racism Livingston reveals three paths Play the game or find ways to work within mainstream predominantly White systems without sacrificing your identity or dignity Think of Kenneth Chenault a tempered radical who rose through the ranks to become the first Black CEO of American Express Change the game or challenge the status quo in an effort to upend White supremacy like Colin Kaepernick whose idealism cost him his football career but made him an icon Leave the game or turn away from White environments to carve out spaces where Black people can flourish from HBCUs to entrepreneurship to the creation of ethnic enclaves like the all Black middle class neighborhood where Livingston himself grew up Drawing on social science his own experiences and interviews with trailblazing Black leaders and luminaries Livingston reveals the contours of these oft overlapping paths for effectively navigating mitigating and circumventing White supremacy Play the Game Change the Game Leave the Game is a bold groundbreaking proposition that empowers readers to make the leap from being played to creating their own game plan Substance, Judgment, and Evaluation Patrick T.
