Speedlitter's Handbook Syl Arena, 2010-12-19 Getting your Canon Speedlite to produce the light you need can be a real challenge For those new to flash photography or for anyone who has previously given up out of frustration Speedlitter s Handbook is a revelation Photographer Syl Arena takes you on a journey that begins with an exploration of light and color moves through a comprehensive discussion of the Canon Speedlite family and all of the accessories and equipment available to the Speedlitter then settles down to crafting great light in one photo shoot after another Whether you want to create a classical portrait shoot an event or simply add a little fill light to a product shot Speedlitter s Handbook shows you how A fantastic in depth resource illustrated with over 500 images Speedlitter s Handbook covers how to see the various characteristics and properties of light itself as well as the differences between how your camera sees versus how you see all the buttons and dials of the entire Canon Speedlite family the basics of on camera flash and the necessity of getting your flash off the camera how to beautifully balance flash with the existing ambient light all the equipment necessary for great Speedlite shots how to get amazing shots with just one Speedlite how and when to use E TTL versus manual flash the use of color gels to balance color as well as create dramatic effects how to tame the sun or any really bright light with hi speed sync and much much more Whether you re shooting portraits events or sports Speedlitter s Handbook is an essential resource that teaches you how to craft the light you need for any type of shot you want **Popular Photography** ,2008-08 Mastering Canon EOS Flash Photography, 2nd Edition Nk Guy, 2016-03-18 In this updated second edition of the authoritative bestselling Mastering Canon EOS Flash Photography photographer NK Guy brings the book fully up to date with coverage of all the newest Canon gear that has hit the market since the first edition published in 2010 This includes coverage of the radio enabled Canon Speedlite 600EX RT and Canon Speedlite Transmitter ST E3 RT as well as the other Speedlites that have released since the first edition s publication Canon Speedlite 90EX 270EX II 320EX and 600EX And this is the first book to cover Canon s new affordable master unit the Speedlite 430EX III RT flash Digital cameras and flash technology have truly revolutionized photography in the 21st century Originally seen simply as a practical way to illuminate dark scenes with portable light flash today is used for a host of creative and nuanced applications including supplementing daylight designing complex scenes lit by multiple light sources and simply creating beautiful controllable light for portraiture With LCD screens on DSLRs the ability to get instant feedback on lighting setups is a great help in advancing one s lighting capabilities and encouraging experimentation However flash photography can still be a difficult artistic and technical challenge It s simple to get that harsh deer in the headlights look from built in automatic flash but it is a far cry from beautiful light Creating natural looking images is not nearly as straightforward Mastering the properties of light and the ability to manipulate craft and direct it is a lifelong endeavor Those diving into Speedlights need some help Manuals are terse and the terminology is confusing this is where Mastering Canon EOS Flash Photography comes in This is the complete book on the subject guiding

you through Canon's Speedlite system from off camera portable flash to professional studio lighting. It covers the fundamentals of flash metering technology, discusses key lighting concepts, and documents a wide range of Canon and third party equipment. Universal flash accessories, studio gear, and radio triggers are all thoroughly covered. The book is lavishly illustrated with diagrams that demonstrate important functions and lighting arrangements, and inspiring photos that show sophisticated flash techniques. Though tailored for users of Canon EOS cameras, owners of other camera systems will find much valuable information as well. So whether you're just getting started with flash or you've picked up the bug for off camera lighting from such popular websites as Strobist.com, or you're making the leap into advanced studio work, *Mastering Canon EOS Flash Photography* is your in-depth resource. Includes a foreword by David Hobby, noted photojournalist and founder of Strobist.com.
