differences between learners in areas such as language aptitude language learning motivation and exposure to the language
influence second language learning Most of this research concerned adults Far fewer studies have addressed the role of
individual differences in second language learning of young learners As second language learning programmes tend to start
earlier than before and children are nowadays frequently exposed to a foreign language in social settings such as online
games and social media studying the role of individual differences in young learners can contribute both to SLA theories and
to evidence based L2 education This book discusses recent findings concerning the role of individual differences in language
learning in young learners The chapters in the book concern different topics linked to internal individual differences such as
language aptitude motivation attitude and external individual differences such as exposure and type of instruction the
