## COMPARING & CONTRASTING EVENTS

**THE NEW WORLD**

My first new discovery was the fact that the world was not a flat surface, but a sphere. This was a great discovery, for it was the first time that I had learned that the world was round. I had always thought that it was flat, and I had been told that it was flat by the people I knew. But now I knew that it was round, and I was very happy about it.

I also discovered that the world was not a single country, but a collection of many different countries. I had always thought that there was only one country, and I had been told that there was only one country by the people I knew. But now I knew that there were many different countries, and I was very happy about it.

These were the first things I discovered when I went to the new world. I was very happy about them, and I was very proud of myself for discovering them. I was the first person to discover them, and I was the first person to tell the world about them. I was a great explorer, and I was a great discoverer.
