The large number of pedagogical devices employed in this text will guide a student through the course. Integrated throughout the text students and instructors will find Explore Discuss boxes which encourage students to think critically about mathematical concepts. In each section the worked examples are followed by matched problems that reinforce the concept being taught. In addition the text contains an abundance of exercises and applications that will convince students that math is useful. A MathZone site featuring algorithmic exercises videos and other resources accompanies the text. **Algebra 2** Ron Larson, 1993 *College Algebra* M. G.
