Antia, 2017-05-01 An in-depth look at the changing sociolinguistic dynamics that have influenced South African society. To date there has been no published textbook which takes into account changing sociolinguistic dynamics that have influenced South African society. Multilingualism and Intercultural Communication breaks new ground in this arena. The scope of this book ranges from macro sociolinguistic questions pertaining to language policies and their implementation or non-implementation to micro sociolinguistic observations of actual language use in verbal interaction mainly in multilingual contexts of Higher Education (HE). There is a gradual move for the study of language and culture to be taught in the context of professional disciplines in which they would be used for example Journalism and African languages Education and African languages etc. The book caters for this growing market.
