**The Dangerous Rise of Therapeutic Education** Kathryn Ecclestone, Dennis Hayes, 2009-05-07 The silent ascendancy of a therapeutic ethos across the education system and into the workplace demands a book that serves as a wake up call to everyone Kathryn Ecclestone and Dennis Hayes controversial and compelling book uses a wealth of examples across the education system from primary schools to university and the workplace to show how therapeutic education is turning children young people and adults into anxious and self preoccupied individuals rather than aspiring optimistic and resilient learners who want to know everything about the world The chapters address a variety of thought provoking themes including how therapeutic ideas from popular culture dominate social thought and social policies and offer a diminished view of human potential how schools undermine parental confidence and authority by fostering dependence and compulsory participation in therapeutic activities based on disclosing emotions to others how higher education has adopted therapeutic forms of teacher training because many academics have lost faith in the pursuit of knowledge how such developments are propelled by a deluge of political initiatives in areas such as emotional literacy emotional well being and the soft outcomes of learning The Dangerous Rise of Therapeutic Education is eye opening reading for every teacher student teacher and parent who retains any belief in the power of knowledge to transform people's lives Its insistent call for a serious public debate about the emotional state of education should also be at the forefront of the minds of every agent of change in society from parent to policy maker

**The Addiction Recovery Handbook** Richard W. Clark, 2020-09-28 What Richard Clark presents in The Addiction Recovery Handbook Understanding Addiction and Culture is long overdue Since 1939 Bill Wilson's important and influential books Alcoholics Anonymous and AA's Twelve Steps and Twelve Traditions have helped millions of people struggling with addiction to recover In more than 80 years since then a lot has changed the definition of addiction its demographics social attitudes to addiction politics religious influence treatment modalities and the epidemiology of the illness These have taken tolls on our modern network of relationships and treatment that culture and community now depend upon The Addiction Recovery Handbook examines the changing historical views of addiction outlines how this culture developed its contemporary perceptions and values and how society contributes to this growing problem Richard Clark proposes AA's traditional religious model of God's help and forgiveness can no longer address the needs of a diverse and largely irreligious society where atheism is becoming mainstream His updated analysis of the traditional AA approach proposes that self understanding and awareness through knowledge and education psychology and compassion be the significant components of any recovery framework This will guide both caregivers and addicts to develop expertise regarding more successful treatment and recovery protocols This would be in a supportive environment of self knowledge and mutual respect whether theist or atheist All concerned will acquire the ability to live a spiritual life which is clearly defined The Addiction Recovery Handbook is an interesting and readable book and is intended for everyone addicts medical professionals

But in the 21st century there are new dangers new teachers who threaten to do more damage than the last. These are not obscure teachers that Hanegraaff unmasks. We know their names. We have seen their faces sat in their churches and heard them shamelessly preach and promote the false pretexts of a give to get gospel. They are virtual rock stars who command the attention of presidential candidates and media moguls. Through make believe miracles urban legends counterfeit Christs and twisted theological reasoning they peddle an occult brand of metaphysics that continues to shipwreck the faith of millions around the globe. God cannot do anything in this earthly realm unless we give Him permission. Keep saying it I have equality with God talk yourself into it. Being poor is a sin. The Jews were not rejecting Jesus as Messiah it was Jesus who was refusing to be the Messiah to the Jews. You create your own world the same way God creates His. He speaks and things happen you speak and they happen. Christianity in Crisis 21st Century exposes darkness to light pointing us back to a Christianity centered in Christ. From the Preface Having lost the ability to think biblically postmodern Christians are being transformed from cultural change agents and initiators into cultural conformists and imitators. Pop culture beckons and postmodern Christians have taken the bait. As a result the biblical model of faith has given way to an increasingly bizarre array of fads and formulas

APPROVAL ADDICTION asks why so many of us have an overwhelming need for acceptance from the wider world and provides the key to breaking free from this addiction. Joyce Meyer's groundbreaking book now available with a new look for the B format edition. Demonstrates that you can accept who you are. Identifies the cause of our addictive need for approval.
