Applications of Graph Transformations with Industrial Relevance Andy Schürr, Manfred Nagl, Albert Zündorf, 2008-10-15  
This book constitutes the thoroughly refereed post conference proceedings of the Third International Symposium on Applications of Graph Transformations AGTIVE 2007 held in Kassel Germany in October 2007. The 30 revised full papers presented together with 2 invited papers were carefully selected from numerous submissions during two rounds of reviewing and improvement. The papers are organized in topical sections on graph transformation applications, meta modeling and domain specific language, new graph transformation approaches, program transformation applications, dynamic system modeling, model driven software development applications, queries, views and model transformations as well as new pattern matching and rewriting concepts. The volume moreover contains 4 papers resulting from the adjacent graph transformation tool contest and concludes with 9 papers summarizing the state of the art of today's available graph transformation environments.
