National Institute of Standards and Technology (U.S.),1971 Publications United States. National Bureau of
Standards,1973 Rediscovering the Fifth dimension Jan Edvin Andersen,2023-05-31 This brand new universal model and
physics was first published in book form September 26th 2015 Remember the important date This book is a brand new
textbook in a brand new basic 5 dimensional quantum physics and is written for future physicists and researchers This new
model is a full visualization of all these extra undetectable quantum physical dimensions Rediscovering the fifth dimension is
a brand new 5 dimensional quantum physics model that builds up the entire universe only on energetic oscillating fields and
a very special universal substance This substance is actually the difference between whether something can be seen
discovered detected or not This universal substance was fully proven by Carl David Anderson as early as the 1930s This semi
physical substance is produced only by the Higg s field That s the only reason they were able to discover this Higg s field as
the absolute only possible field they could detect in the particle accelerator They found absolutely no physical particles
Remember this This is very important if you want to understand the universe as it really appears This new quantum physical
hologram model s atoms are only these 4 dimensional oscillating energetic fields which are actually fully proven by the
particle accelerator in 2016 As a result 99% of the universe actually consists of an undetectable quantum physics side and
1% is this strange substance This is where reality comes to the surface and becomes fully visible in the highly active 5
dimensional quantum physical universal engine room The fact that something is visible and detectable is only due to the
substance This new model reveals Tesla technology and stealth technology and points out the very reason why the UFO s can
disappear from today s high tech radars The reason why the UFO can disappear from radar is that there are no physical
particles left in the UFO only the atom This substance can disappear again completely controlled also the stealth effect
occurs in the UFO The particle accelerator s final and very clear evidence just says that there can be no physical particles
and that it actually proves that there has never been a big bang Still today is this fake big bang universe only researched and
taught Why Is it only because scientists don t understand the right universe that the particle accelerator actually proved to
them should be there The energetic oscillating field universe **Catalog of National Bureau of Standards Publications,**
