is an innovative work that intersects architecture urban design practices and geography cartography on the one hand with history politics and sociology on the other It is a must read for anyone interested in the history of activism in New York City and how the city can inspire and encourage political engagement Through its beautifully illustrated pages where drawings maps timelines and photographs underline the connections between people politics and space readers will discover new ways to imagine buildings as a critical part of the civic infrastructure and a vital resource for the future      **The Official Railway Equipment Register** ,1983
