Backdoor Lawmaking Melinda N. Ritchie, 2023 Civics textbooks focus on how Congress makes policy through the legislative process, but the reality is that members of Congress have limited opportunities to advance their policy priorities. In fact, less than five percent of the bills that are introduced in Congress become law. Even the most tenacious legislators are confronted by bicameralism, partisan gridlock, chamber procedures, leadership's control of the agenda, and the diverse interests of 534 other members of Congress. What strategies do lawmakers have for navigating these challenges? In this book, Melinda N. Ritchie reveals how members of Congress use the federal bureaucracy as a backdoor for policymaking. Today, more law in the United States is made by unelected bureaucrats through federal agency regulations than with congressional statute. Ritchie argues that the bureaucracy's growing role in policymaking offers lawmakers a discreet way to represent controversial interests outside of the formal constraints of Congress. Lawmakers overcome obstacles in the legislative process by substituting agency regulations for legislation and

pressuring agencies to make policy changes that would not pass Congress Drawing on an original dataset constructed from records obtained under the Freedom of Information Act Ritchie traces the interactions between members of Congress and federal agencies to illustrate how these communications function as part of a lawmaker s overarching strategy for policymaking Original and timely Backdoor Lawmaking explains how members of Congress exploit the separation of powers and evade the lawmaking process established in the US Constitution

The pursuit of political power is strategic as never before Ministers MPs and candidates parrot the same catchphrases The public service has become politicized And decision making is increasingly centralized in the Prime Minister s Office What is happening to our democracy In this persuasive book Alex argues that political parties and government are beholden to the same marketing principles used by the world s largest corporations Called branding the strategy demands repetition of spoken written and visual messages predetermined by the leader s inner circle Marland warns that public sector branding is an unstoppable force that will persist no matter who is in power It also creates serious problems for parliamentary democracy that must be confronted This book will fascinate anyone who is interested in how Ottawa works and where Canadian politics is headed
