*Ableism in Education: Rethinking School Practices and Policies (Equity and Social Justice in Education)* Gillian Parekh, 2022-05-10 How we organize children by ability in schools is often rooted in ableism Ability is so central to schooling where we explicitly and continuously shape assess measure and report on students abilities that ability based decisions often appear logical and natural However how schools respond to ability results in very real lifelong social

and economic consequences Special education and academic streaming or tracking are two of the most prominent ability based strategies public schools use to organize student learning Both have had a long and complicated relationship with gender race and class In this down to earth guide Dr Gillian Parekh unpacks the realities of how ability and disability play out within schooling including insights from students teachers and administrators about the barriers faced by students on the basis of ability From the challenges with ability testing to gifted programs to the disability rights movement Parekh shows how ableism is inextricably linked to other forms of bias Her book is a powerful tool for educators committed to justice seeking practices in schools

middle class perspective The report concludes that the empowerment of the Arab middle class could pave a way out of the current development and governance debacle towards an Arab developmental State Publisher s description
