*New Balanced Anesthesia* Asian and Oceanic Society for IntraVenous Anesthesia. Congress, Kenjiro Mori, 1998  
Hardbound International Congress Series 1164 This book proposes a New Balanced Anesthesia based on the molecule oriented pin point targeted drugs. This engaging study of an important and influential department explores key themes in the field. Beinart uses a narrative framework to recall how the struggles of the early years and the demands of wartime contingencies strengthened the links between research training and clinical services the pressures to demote the department in spite of its record of excellence and how it survived to contribute to important sub specialties of anesthesia and to engage in qualitatively new research. A combination of documentary and oral sources informs this original account including a final chapter by the present Nuffield Professor of Anaesthetics M K Sykes and a foreword by the first Professor Sir Robert Macintosh      **The Medical Journal of Australia**, 1994      **Anaesthesia and Intensive Care A-Z** Steven M.
