**Religion and Popular Culture in America, Third Edition** Bruce David Forbes, Jeffrey H. Mahan, 2017-03 Since 2000 Religion and Popular Culture in America has been one of the standard books used in teaching this area of study Modestly updated in 2005 it continues to be taught in colleges universities and theological schools across the continent The basic four part structure of Religion and Popular Culture in America remains sound and is a feature that appeals to many who have taught the volume Section One Religion in Popular Culture examines the way traditional religious symbols narratives and forms of religious practice appear in popular culture Section Two Popular Culture in Religion considers how religion takes on and is reshaped by styles and values of popular culture Section Three Popular Culture as Religion explores the ways that aspects of popular culture and their reception might be considered to be forms of religion Section Four Religion and Popular Culture in Dialogue introduces religiously based critiques of popular culture and ways that popular culture articulates common critiques of religion The third edition maintains the structure and basic length of the current edition and retains Forbes introductory framework and update versions of key essay But they replace many of the more dated subjects with new material drawing on more contemporary examples A concluding essay by Mahan organizes key insights from the essays and relates them to the theories of popular culture illuminated in the introduction Provided by publisher **Mimetic Theory and Film** Paolo Diego Bubbio, Chris Fleming, 2019-02-21 The interdisciplinary French American thinker Ren Girard 1923-2015 has been one of the towering figures of the humanities in the last half century The title of Ren Girard's first book offered his own thesis in summary form romantic lie and novelistic truth mensonge romantique et vrai rit romanesque And yet for a thinker whose career began by an

engagement with literature it came as a shock to some that in *La Conversion de l'art* Girard asserted that the novel may be an outmoded form for revealing humans to themselves. However Girard never specified what if anything might take the place of the novel. This collection of essays is one attempt at answering this question by offering a series of analyses of films that aims to test mimetic theory in an area in which relatively little has so far been offered. Does it make any sense to talk of *vitrit* filmique? In addition *Mimetic Theory and Film* is a response to the widespread objection that there is no viable Girardian aesthetics. One of the main questions that this collection considers is can we develop a genre specific mimetic analysis of film and are we able to develop anything approaching a Girardian aesthetic. Each of the contributors addresses these questions through the analysis of a film **Orphan Black and Philosophy** Richard Greene, Rachel Robison-Greene, 2016-09-06. In *Orphan Black* several apparently unconnected women discover that they are exact physical doubles that there are more of them out there that they are all illegally produced clones and that someone is having them killed. They find themselves in the midst of a secret and violent struggle between a fundamentalist religious group a fanatical cult of superhuman biological enhancement a clandestine department of the military and a giant biotech corporation. Law enforcement is powerless and easily manipulated by these sinister forces. The clones are forced to form their own Clone Club led by the resourceful Sarah Manning to defend themselves against their numerous enemies and to find out exactly where they came from and why. *Orphan Black* continually raises philosophical issues as well as ethical and policy questions deserving philosophical analysis. What makes a person a unique individual? Why is it so important for us to know where we came from? Should we have a say in whether a clone is made of us? Is it immoral to generate clones with built in health problems or personality defects and if so does that mean that producers of clones must practice eugenic selection? What light does the behavior of members of the Clone Club shed on the nature/nurture debate? Is it relevant that most are heterosexual one is a lesbian and one is a transgendered male? This TV show shows us problems of biotechnology which will soon be vital everyday issues. But what kind of a future faces us when human clones are commonplace? Will groups of human clones have a tight bond of solidarity making them a threat to democracy? If the world is going to be taken over by an evil conspiracy would it better be a scientific cult like Neolution or a religious cult like the Prolethians? Should biotech corporations be able to own the copyright on human DNA sequences? What rules of morality apply when you can't trust the police and powerful groups are ready to murder you?

**First Adventures in Philosophy** Vergilius Ferm, 1936 **Bakhtin/"Bakhtin"** Peter Hitchcock, 1998 Offering original research on Mikhail Bakhtin by leading scholars in the field this special issue of *SAQ* both celebrates the recent centennial of Bakhtin's birth and elaborates significant new strains in Bakhtinian thinking. The distinction between Bakhtin and Bakhtin is a measure of the incommensurable space between the biographically verifiable figure and the one who emerges from contemporary critical applications of his work. While the inevitability of this space must be acknowledged so too must its implications for a politics of culture where theory is concerned. Can there be a real Bakhtin and can this one simply be the
