*A Handbook on Legal Languages and the Quest for Linguistic Equality in South Africa and Beyond* Zakeera Docrat, Russell H Kaschula, Monwabisi K Ralarala, 2021-06-02 A Handbook on Legal Languages and the Quest for Linguistic Equality in South Africa and Beyond is an interdisciplinary publication located in the discipline of forensic linguistics. The language and law This handbook includes varying comparative African and global case studies on the use of language in courtroom discourse and higher education institutions Kenya, Morocco, Nigeria, Australia, Belgium, Canada, and India. These African and global case studies form the backdrop for the critique of the monolingual English language of record policy for South African courts. The core of this handbook is discussed in relation to case law and the beleaguered legal interpretation profession. This handbook argues that linguistic transformation and decolonisation of South Africa's legal and higher education systems needs to be undertaken where legal practitioners are linguistically equipped to litigate in a bilingual multilingual courtroom that enables access to justice for the majority of African language speaking litigants enforcing their constitutional language rights.

**Bi- and multilingual universities: European perspectives and beyond** Daniela Veronesi, Christoph Nickenig, 2009 This collection of the proceedings of the 3rd conference on bi and multilingual universities held at the Free University of Bozen Bolzano from 20 to 22 September 2007 tries to give a state of the art insight into theoretical and practical approaches towards implementing bi and multilingual models and policies in higher education institutions in various parts of the world.

Festschrift Rufus H. Gouws Willem Botha, Paul Mavoungou, Dion Nkomo, 2013-06-01 The range of languages covered by the lexicographic investigations reported on e.g. Afrikaans, English, Northern Sotho, Yilumbu, Fang, French and Dutch is a clear indication of the wide ranging influence of Rufus Gouws to whom the work is dedicated.

Re-Envisioning and Restructuring Blended Learning for Underprivileged Communities Bosch, Chantelle, Laubscher, Dorothy Joy, Kyei-Blankson, Lydia, 2021-05-14 Challenges in the educational arena are not new phenomena. However, with the recent outbreak of the COVID 19 pandemic, researchers and educators have been made even more aware of the need for a paradigm shift in education. Blended learning as opposed to fully online learning or traditional face to face teaching has been well researched and has been found to have the potential to provide better educational solutions in challenging contexts. These contexts range from pandemic situations where social distancing is the order of the day to financial and time constraints regarding full time study as well as limited physical capacity at institutions. Blended learning solutions are often designed for resourceful institutions and cannot be easily implemented in developing countries and in communities where resources are limited. Typical issues like connectivity, accessibility, lack of suitable devices and affordability need to be taken into consideration and in cognizance of blended learning interventions. These challenges are often neglected in blended learning research but are critical discussions to be had.
