*Study Opportunities at Universities and Possible Initial Occupations, 1990/1991* Joan Roodt, 1990. This guide contains indexed lists of study opportunities in South African universities that relate to occupations that might be open to persons with various degrees, diplomas or certificates. In the first of two sections in the guide, opportunities for study and employment related to first qualifications are listed as follows: index of fields of study for which study opportunities are available; particular degree programs by field of study; index of occupations available to those with first qualifications; index of institutions offering programs of study. The second section of the guide concerns advanced qualifications and arranges entries as follows: field of study for which advanced degrees are available; actual degree programs at particular institutions; index of institutions offering advanced degrees. For both sections, the descriptions of actual degree programs at particular institutions list the name of the institution, the language medium (English or Afrikaans), the duration of the program, the entry qualifications, subjects required, the admissions criteria, and the application deadline.
