Thank you for choosing TCL. We hope you enjoy your new phone. To help you get the most out of your phone, we've created this guide with easy-to-follow instructions.

English – 30Z Quick Guide
Version A, 2021

Phone Setup

Installing the SIM card and microSD™ card

Turn off your phone and remove the SIM card tray. Place a SIM card (4G, 3G or 2G) into the tray. If required, insert a microSD card.

Put the tray back into the slot.

Charging the battery

Connect the charger to your phone and to a power outlet. Your phone must be fully charged before you turn it on for the first time. Charging takes approximately 4 hours. Use only the charger and cable provided with your phone.

Power on your phone

Press and hold the Power key until your phone powers on. Enter your PIN code if prompted to do so. Your phone will then search for your network.

You can activate your SIM card PIN code in Settings > Security & location > SIM card lock. Enter your PIN code to unlock your SIM card when you power on your phone.

If you enter your PIN code incorrectly three times in succession, your SIM card will be locked. You will need to enter your PUK code to unlock your SIM card.

Power off your phone

Press and hold the Power key to open the phone options menu, and then tap Power off.

Personalize your Home screen

Wallpaper

You can change the Home screen background by changing the wallpaper. Touch and hold an empty area on the Home screen, then tap Wallpapers. Choose a wallpaper from Gallery, Live wallpapers or Wallpapers.

Widgets

Widgets are small applications that provide convenient access to information and services. You can add widgets to the Home screen. Touch and hold an empty area on the Home screen, then tap Widgets. Touch and hold a widget to add it to the Home screen.

Folders

Create folders to group similar apps. Drag one app icon and drop it onto another app icon to create a folder containing the two apps. Additional apps can be added to the folder.

Home settings

You can set the Home screen size by tapping Settings > Display > Home screen style.

Phone

Placing a call

From the Phone key on the Home screen:

- Enter the phone number directly using the dialpad.
- Enter a contact name in the search box to search your contacts.
- Touch and hold a number in Call log to call that number.

To enter + to make international calls, touch and hold 0.

To delete a number, tap .

Answering or rejecting a call

When a call comes in:

- Slide to answer the call.
- Slide to reject the call.
- Slide to reject the call and send a text message.

To set the volume for incoming calls, press the Volume key.

Contacts

Contacts enable you to store and manage information about your friends and colleagues, such as their phone numbers, email addresses and more.

To access this feature, open the Home screen, then select Contacts.

Adding a contact

Editing a contact

To edit contact information, open a contact and tap Edit.

Importing, exporting, and sharing contacts

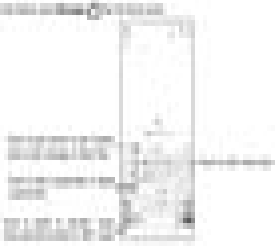
From the Contacts screen, tap > Settings > Import/export to import contacts from your SIM card, storage card or other devices, or to export contacts to your storage card.

You can share a contact's information with others by sending it via Bluetooth, email or text message. Open the contact, then tap > Share contact and select the sharing method.

Messages

You can create, edit and send SMS or MMS with this phone.

To access this feature, open Messages on the Home screen.



Sending a message

Enter the phone number of the recipient in the To field, or select from the list. Tap the message field and enter your message. Select Send to send the message.

If a SMS is sent with an attachment, or to an email address, it will be converted to an MMS message automatically. You will be charged accordingly. For details, contact your service provider.

Sending a multimedia message

After composing a text message, tap > Add subject to enter a subject for the message. Tap > Add file to add an attachment to the message.

A SMS will be converted to MMS automatically when a file is added, a subject is entered, or an email address is added to the recipient list.

Gmail

To register for your Gmail account, open Gmail and follow the setup wizard. To set up other email accounts, open Gmail and select Add account > Other.

To create and send emails

- Select to open the Inbox.
- Select a label to view emails in that category.
- Compose an email: Select to open the Compose screen.
- Add file attachments: Select > Attach file.
- Set options: Select > Settings.
- Manage labels: Select > Manage labels.

Camera & Video

Activate the camera by tapping Camera on the Home screen or by swiping right on the Home screen.

To take a photo

Aim the camera at the subject. Tap to select the focus area. Tap to take a photo.

To take a video

Select to switch to video mode. Tap to start recording. Tap to stop recording. Videos are saved automatically.

Security

Keep your phone safe by setting a screen lock. Select Settings > Security & location > Screen lock to choose a screen lock type. Follow the prompts to set it up.

Enter your screen unlock code, Pattern, PIN, Password, or Face unlock.

Face unlock will enable you to unlock your phone by looking at the screen.

Note: Face unlock is less secure than your PIN, pattern or password.

Data backup

Your data is stored on your phone by default. Back up your data to your Google Account or to a storage device. You can also restore data to your phone from a backup.

To back up your data:

- Select Settings > System > Backup.

Factory data reset

To reset your phone:

1. Select Settings > System > Reset options > Erase all data (factory reset).
2. Tap Erase all data.

Resetting your phone will erase all of your personal data and downloaded applications. You will not be able to undo this action. Make sure you want to permanently delete all your data before you proceed.

If you are unable to access your phone, but you know your phone's username and password, you can perform a factory reset from the recovery menu.

Phone

Placing a call

From the Phone key on the Home screen:

- Enter a contact name in the search box to search your contacts.
- Select a number stored in Call log.

To enter + to make international calls, touch and hold 0.

To delete a number, tap .

Answering or rejecting a call

When a call comes in:

- Slide to answer the call.
- Slide to reject the call.
- Slide to reject the call and send a text message.

To set the volume for incoming calls, press the Volume key.

Contacts

Contacts enable you to store and manage information about your friends and colleagues, such as their phone numbers, email addresses and more.

To access this feature, open the Home screen, then select Contacts.

Adding a contact

Editing a contact

To edit contact information, open a contact and tap Edit.

Importing, exporting, and sharing contacts

From the Contacts screen, tap > Settings > Import/export to import contacts from your SIM card, storage card or other devices, or to export contacts to your storage card.

You can share a contact's information with others by sending it via Bluetooth, email or text message. Open the contact, then tap > Share contact and select the sharing method.

Getting connected

This section helps you get connected to the Internet or other devices, or share content with nearby devices.

Network

For the first time you turn on your phone, it will automatically configure your SIM network settings.

To add a new network connection, open Settings > Network & internet > Mobile network.

Wi-Fi

Wi-Fi lets you connect to the Internet when your phone is within the range of a wireless network. You can use your phone on Wi-Fi networks without a SIM card in your phone.

To turn Wi-Fi on or off:

- Open Settings > Network & internet > Wi-Fi.
- Select the switch to turn Wi-Fi on or off.
- Select a network to connect to it.
- If you select an open network, you will be connected to it automatically.
- If you select a secured network, you will be prompted to enter a password or other credentials.

To add a Wi-Fi network:

- Open Settings > Network & internet > Wi-Fi.
- Scroll to the bottom of the list of networks and select Add network.
- Enter the network name and security type.
- Enter the password and select Save.

Connecting to Bluetooth devices

Bluetooth is a short-range wireless communications technology that you can use to exchange data or connect to other Bluetooth devices without cables.

To turn Bluetooth on or off:

- Open Settings > Connected devices > Connection preferences > Bluetooth.
- Select the switch to turn Bluetooth on or off.

To pair with another Bluetooth device:

- Open Settings > Connected devices > Connection preferences > Bluetooth.
- Make sure Bluetooth is turned on.
- Select Pair new device. Your phone will search for and display available Bluetooth devices.
- Select the device you want to pair with.
- Follow the prompts to confirm the pairing.

To disconnect or unpair a device:

- Open Settings > Connected devices > Connection preferences > Bluetooth.
- Select the device you want to disconnect or unpair.
- Select Disconnect or Forget.
