**Re-Envisioning and Restructuring Blended Learning for Underprivileged Communities** Bosch, Chantelle, Laubscher, Dorothy Joy, Kyei-Blankson, Lydia, 2021-05-14 Challenges in the educational arena are not new phenomena. However, with the recent outbreak of the COVID 19 pandemic, researchers and educators have been made even more aware of the need for a paradigm shift in education. Blended learning, as opposed to fully online learning or traditional face-to-face teaching, has been well researched and has been found to have the potential to provide better educational solutions in challenging contexts. These contexts range from pandemic situations where social distancing is the order of the day to financial and time constraints regarding full-time study as well as limited physical capacity at institutions. Blended learning solutions are often designed for resourceful institutions and cannot be easily implemented in developing countries and in communities where resources are limited. Typical issues like connectivity, accessibility, lack of suitable devices, and affordability need to be taken into consideration and in cognizance of blended learning interventions. These challenges are often neglected in blended learning research but are critical discussions to be had. *Re-Envisioning and Restructuring Blended Learning for Underprivileged Communities* shares how institutions in the developing world and less privileged communities have reimagined and restructured blended education to enhance teaching and learning for underprivileged communities. This book aims to address blended learning solutions across institutional, program, course, and activity levels. The chapters will cover a variety of learning environments from rural settings to less developed countries and more, and explore the programs and courses designed to improve student success and accessibility in diverse student populations. This book is ideally intended for teachers, administrators, teacher educators, practitioners, stakeholders, researchers, academicians, and students who are interested in blended learning opportunities in less privileged settings and to underserved and marginalized populations.

**Translanguaging, Coloniality and Decolonial Cracks** Robyn Tyler, 2023-01-13 In this linguistic ethnography of bilingual science learning in a South African high school, the author connects microanalyses of classroom discourse to broader themes of decoloniality in education. The book challenges the deficit narrative often used to characterise the capabilities of linguistically minoritised youth and explores the challenges and opportunities associated with leveraging students' full semiotic repertoires in learning specific concepts. The author examines the linguistic landscape of the school and the beliefs and attitudes of staff and students which produce both coloniality and cracks in the edifice of coloniality. A critical translanguaging lens is applied to analyse multilingual and multimodal aspects of students' science meaning-making in a traditional classroom and a study group intervention. Finally, the book suggests implications for decolonial pedagogical translanguaging in Southern multilingual classrooms.

representing four language families and spanning five countries It asks the research question To what extent does full tone marking contribute to oral reading fluency comprehension and writing accuracy and does that contribution vary from language to language One of the main findings is that the ethno literacy profile of the language community and the social profile of the individual are stronger predictors of reading and writing performance than are the linguistic and orthographic profiles of the language Our data also suggest that full tone marking may be more beneficial for less educated readers and those with less experience of L1 literacy The book will bring practical help to linguists and literacy specialists in Africa and beyond who are helping to develop orthographies for tone languages It will also be of interest to cognitive psychologists exploring the reading process and researchers investigating writing systems [PISA A Review of International Large-Scale Assessments in Education Assessing Component Skills and Collecting Contextual Data](#) Cresswell John, Schwantner Ursula, Waters Charlotte, 2015-12-11 The OECD has initiated PISA for Development PISA D in response to the rising need of developing countries to collect data about their education systems and the capacity of their student bodies **Why History Education?** Nadine Fink, Markus Furrer, Peter Gautschi, 2023-08-22 Sinn und Zweck der Geschichte werden immer wieder neu hinterfragt weil sich Gesellschaften st ndig neu verorten Davon ist der Geschichtsunterricht direkt betroffen Warum Geschichtsunterricht Autor innen aus 18 L ndern und vier Kontinenten fragen daher nach der Bedeutung des Geschichtsunterrichts aus unterschiedlichen Perspektiven mit theoretischen berlegungen und Modellen mit Bez gen aus der Unterrichtspraxis und Erkenntnissen aus der Forschung Die Publikation pr sentiert eine ganze Reihe von Gr nden warum Geschichte heute unbedingt unterrichtet werden muss Sie liest sich als Pl doyer f r einen kompetenten Umgang mit Geschichte in heutigen Gesellschaften *Mathematics Education and Language Diversity* Richard Barwell, Philip Clarkson, Anjum Halai, Mercy Kazima, Judit Moschkovich, Núria Planas, Mamokgethi Setati-Phakeng, Paola Valero, Martha Villavicencio Ubillús, 2015-11-25 THIS BOOK IS AVAILABLE AS OPEN ACCESS BOOK ON SPRINGERLINK This book examines multiple facets of language diversity and mathematics education It features renowned authors from around the world and explores the learning and teaching of mathematics in contexts that include multilingual classrooms indigenous education teacher education blind and deaf learners new media and tertiary education Each chapter draws on research from two or more countries to illustrate important research findings theoretical developments and practical strategies This open access book examines multiple facets of language diversity *Handbook of Speech-Language Therapy in Sub-Saharan Africa* Ulrike M.
