The Alliteration of Chaucer Charles Flint McClumpha, 1888 *Poems about the Natural World* Evan Voboril, 2015-04-09
This book invites the reader to jump into a selection of poems about the natural world written by people from different places and times. It gives the reader the keys needed to unlock poems. It equips the reader to explore the meanings that a poem has and it explains the techniques poets use to create their effects.

Chapters on alliterative verse; a dissertation in candidature for the degree of D.Lit John Lawrence, 1892 *Natural Spectaculars* Michiel Meeusen, Luc Van der Stockt, 2015-11-17
The value of Plutarch's perception of physical reality and his attitude towards the natural spectacle. Plutarch was very interested in the natural world around him not only in terms of its elementary composition and physical processes but also with respect to its providential ordering and marvels. His writings teach us a lot about his perception of physical reality and about his attitude to the natural spectacle. He found his greatest inspiration in the ontological and epistemological framework of Plato's *Timaeus* but a wide range of other authors were also of seminal interest to his project. Moreover, the highly literary value of Plutarch's natural philosophical writings should not be underrated. It is therefore not surprising that recently scholars have started to reassess the ancient scientific value of Plutarch's natural philosophical writings. *Natural Spectaculars* aims to give further impetus to this dynamic by treating several aspects of Plutarch's natural philosophy which have remained unexplored up to now.

The Poetics of National and Racial Identity in Nineteenth-Century American Literature John D. Kerkerling, 2003-12-11
John D. Kerkerling's study examines the literary history of racial and national identity in nineteenth-century America. Kerkerling argues that writers such as DuBois, Lanier, Simms and Scott used poetic effects to assert the distinctiveness of certain groups in a diffuse social landscape. Kerkerling explores poetry's formal properties: its sound effects as they intersect with the issues of race and nation. He shows how formal effects ranging from meter and rhythm to alliteration and melody provide these writers with evidence of a collective identity, whether national or racial. Through this shared reliance on formal literary effects, national and racial identities, Kerkerling shows, are related elements of a single literary history. This is the story of how poetic effects helped to define national identities in Anglo-America as a step

toward helping to define racial identities within the United States This highly original study will command a wide audience of Americanists **Plain Living and High Thinking, Or, Practical Self-culture, Moral, Mental and Physical** W.H.
