Why do women still earn less than men?** Barbara Barisic,2021-08-23 Bachelor Thesis from the year 2021 in the subject Gender Studies grade 1 3 University of applied sciences Munich course International Management language English abstract This Bachelor Thesis gives a historical overview of women in the labour market as well as their fight for the prevention of gender based discrimination concerning salary and access to various jobs In addition to this the definition of the gender pay gap is explained just like the differences between adjusted and unadjusted gender pay gap and how this

distinction affects the implementation of possible solutions. The third chapter gives an insight into the reasons for inequality of salaries between women and men such as educational segregation that later leads to the occupational segregation negotiating skills of women or lack of those skills parental leave glass ceiling glass escalator and sticky floor correlation lack of affordable childcare the way work is valued. When it comes to the solutions chapter three shows that more legal regulations pay transparency equalising family leave increasing female salaries and companies committing to gender balanced leadership could help close the gap. Apart from the discourse analysis the questionnaire was conducted to find out and show diverse people's opinions in the author's environment family friends co workers neighbours fellow students on the gender pay gap. For example what they think the main reasons are solutions when could the gender wage gap end to what extent do they agree or disagree with the given statements. Another goal was to explain gender inequality in their workplace and compare survey results with those in the first part of the research. It can be then seen that the research design consists of both qualitative and quantitative analysis the so called mixed methods.

International Motion Picture Almanac Terry Ramsaye, 1992    Nuussuarmiut Keld Hansen, 2008 This book describes life in a small hunting community in Northwest Greenland. It is based on fieldwork carried out by the author from 1966 to 1968 and documents in detail the traditional material culture ways of hunting and fishing daily life and festive occasions of an Inuit society not yet influenced by European culture. The historical background of the settlement from the establishment in 1923 is outlined. Daily life in the settlement itself and out on the hunting grounds is followed through a whole year and all processes are documented in the many original photographs. The book demonstrates a surprising stability in the life of the hunting families not due to conservatism but because experience has shown them that this way of living is the most suited to the given conditions. At the time of the field study new tools and a number of other items had been introduced. In a large number of cases they are used in conjunction with more traditional tools.
