Edition contains marginal notes on teaching suggestions activity expansions and answers to exercises in the text *The Journal Book for Teachers of At-risk College Writers* Susan Gardner, Toby Fulwiler, 1999. Educators across the grades and across the curriculum have long recognized the usefulness of journals to help student writers. But what about basic writers, learning disabled students and nontraditional and returning students? One of the values of journal writing is its accessibility, yet no one has seemed to consider how at-risk students might benefit. With this new collection, the first of its kind, Susan Gardner and Toby Fulwiler provide much-needed advice. The authors of these essays are all experienced teachers of at-risk writers, both at two and four-year colleges. They know the at-risk students they are describing. Some readers will recognize the students as basic writers in basic writing courses. Others will find chapters written by writing center directors who serve a variety of students we might term as at-risk. There are also chapters from educators who work specifically with Deaf students, ADHD students, and learning disabled students. Each one describes uses of the journal and the adjustments to the assignment that make the journal such an accessible and instructive writing genre.

**Keys to Successful Writing** helps students become better writers by presenting simple, consistently applicable tools and techniques. The book's organization flows from simple to more complex essays. The text focuses on five keys to successful essay writing: purpose, focus, material, structure, and style. This distinctive heuristic, developed by the author and tested in her classrooms, helps students focus on the skills and ways of thinking that will make them stronger writers. Featuring a student-friendly, highly accessible writing style, the text presents clear, specific strategies for writing, combined with student and professional models that are engaging, provocative, and contemporary. An editing handbook is also included for a complete writing resource. A series of interactive writing exercises and activities, and longer writing assignments, give the text a predictable organizational structure that's easy to learn and teach from.

**for Successful Writing** James A. Reinking, Robert Von Der Osten, 2006-12. Now in its eighth edition, the authors of *Strategies for Successful Writing: A Rhetoric Research Guide Reader and Handbook* have strived to achieve the same steadfast goals that have motivated them from the beginning: to create a rhetorically organized writing guide that combines four books into one convenient and flexible teaching tool while offering students an exceptional value. By having at their disposal a comprehensive textbook that offers ample material for a full year composition course, instructors teaching a one-term course can make various selections from Chapters 1-17 from whatever types of specialized writing suits the needs of their students and from the appropriate essays in the reader. As well, because the authors believe strongly that an effective composition textbook should address students directly, they've aimed for a conversational yet clear style that invites students into the book, lessens their apprehensions about writing, and provides a model for their own prose. This style complements the authors'

strong student based approach to writing and together they help create a text that genuinely meets student needs     **The Journal of Education** ,1892     **Subject Guide to Books in Print** ,2001     Successful College Writing Kathleen T.
