Transforming Schools Using Project-Based Learning, Performance Assessment, and Common Core Standards Bob Lenz, Justin Wells, Sally Kingston, 2015-01-27. It's not what students know but what they do with what they know that is important. Schools are changing in response to this reality and in *Transforming Schools Using Project Based Learning Performance Assessment and Common Core Standards* Bob Lenz, Justin Wells and Sally Kingston draw on the example of the Envision Education schools as well as other leading schools around the country to show how the concept of deeper learning can meet the need for students who are both college and career ready and engaged in their own education. In this book the authors explain how project based learning can blend with Common Core aligned performance assessment for deeper learning. You'll discover how many schools have successfully made the transition from traditional teacher centered learning to project based deeper learning and find many practical ideas for implementation. Companion DVD and website include videos showing how to implement deeper learning strategies in the classroom. Evidence based descriptions show why deeper learning is right for students. Performance assessment experts explain how to align assessments with Common Core by shifting the emphasis from knowing to doing. Extensive game plan section provides step by step guidance for change. Schools are complex organizations and transformation involves all of the stakeholders from students to superintendents. But as this book shows there are amazing benefits to be realized when everyone commits to diving deeper into learning.

The Formative 5 Francis (Skip) Fennell, Beth McCord Kobett, Jonathan A. Wray, 2016-12-15. This highly practical and readable book gets right down into the detail of what good formative assessment looks like in math classrooms and shows how teachers can make this a part of their regular planning and instruction. Dylan Wiliam, Emeritus Professor of Educational Assessment, University College London. Imagine how it would feel to not worry about how to plan, teach and check for student mathematical understandings and related proficiencies. Imagine if this important process felt like a natural every day part of your lesson preparation instead of an extra thing to do. This must have resource shows the way. NCTM Past President Francis Skip Fennell and nationally recognized mathematics educators Beth McCord Kobett and Jonathan Jon Wray offer five of the most impactful proven assessment techniques: Observations, Interviews, Show Me, Hinge Questions and Exit Tasks you can implement every day. Tried and tested by teachers just like you, you'll find that this palette of classroom based techniques will truly assess learning and inform teaching. Research and classroom practice indicates that formative assessment is poorly
