**Spiritual Warfare** Ray C. Stedman, 2011-07-01 Ray Stedman uses Scripture to unmask Satan and reveal his battle plans for defeating Christians. He shows clearly how Satan attacks us and how utterly defenseless we are against him in our own strength. But Stedman assures us in the strong arms and mighty armor of Christ we can become more than conquerors. He shows how the New Testament lays open God's battle plan for victory in life's spiritual combat. To win the battle we must appropriate the complete protection of Christ. Pray. Stand firm in the Christian faith with the certain knowledge that the battle is the Lord's. Stedman's insights will help you to firm your own resolve and prepare you to exchange the defeat and discouragement of carnal illusions for the reality of spiritual triumph. **Spiritual Warfare** emboldens Christians to take their places in history's most amazing war story: the daily triumph of ordinary Christians over the relentless onslaught from the forces of evil.

**The Reign of Truth and Faith** Helen Bromhead, 2009-05-05 This is a ground-breaking study in the historical semantics and pragmatics of English in the 16th and 17th centuries. It examines the meaning, use, and cultural underpinnings of confident and certain sounding epistemic expressions such as *forsooth by my troth* and *in faith* and first person epistemic phrases such as *I suppose*, *I ween*, and *I think*. The work supports the hypothesis that the British Enlightenment and its attendant empiricism brought about a profound epistemic shift in the ways of thinking and ways of speaking in the English speaking world. In contrast to the modern ethos of empiricism and doubt, the 16th and 17th centuries were dominated by an ethos of truth and faith which manifests itself in among other ways the meanings and usages of epistemic expressions for certainty and confidence. The study is firmly based on evidence from texts and collocations in the writings of the day. The study is conducted using the framework of the Natural Semantic Metalanguage (NSM), an approach to semantic explanation developed by Cliff Goddard, Anna Wierzbicka, and collaborators. This book can introduce this approach to readers who are unfamiliar with it, as well as show how it can open new horizons in historical semantics. The primary audience for this book is scholars and graduate students in the fields of linguistics and English studies, especially those interested in historical semantics, pragmatics, and discourse studies. Because of the strongly cultural focus of the book and its drawing on non-linguistic literature, it will be of interest to scholars and graduate students in the fields of cultural history and the history of ideas, as well as in English studies in a broader sense.
