## **Ingenuity Gap:**

**The Ingenuity Gap** Thomas Homer-Dixon, 2011-04-30 Is our world becoming too complex and too fast paced to manage The challenges facing human societies from international financial crises and global climate change to pandemics of tuberculosis and AIDS converge intertwine and often remain largely beyond our ken Most of us suspect that the experts don't really know what's going on and that as a species we have released forces that are neither managed nor manageable This is the ingenuity gap the term coined by Thomas Homer Dixon the critical gap between our need for practical and innovative ideas to solve complex problems and our actual supply of those ideas Homer Dixon shows us how in our complex world while poor countries are particularly vulnerable to ingenuity gaps our own rich countries are no longer immune When the gap widens political disintegration and violent upheaval can result reaching into our own economies and daily lives in subtle unforeseen ways

**The Ingenuity Gap** Maren Leed, 2010 American officers are the bedrock of military success They face a whirlwind of change that is picking up speed yet their preparation is dictated by a system based on stability and predictability that if they ever existed certainly do not exist today Others have identified many of the same problems and have offered some of the same solutions explored in much greater depth than we were able to accomplish here Yet strikingly few changes have been made This reluctance primarily cultural and institutional cannot persist Failing to adapt the officer management system to better align with the future will put U.S. officers at a growing disadvantage placing more and more of a burden upon them as individuals to overcome a bureaucracy that ideally would be dedicated to supporting their success The ingenuity gap is real and growing and our officers are caught in it DOD should immediately implement changes to officer management to close this gap

## **Environmental Change and Security Project Report ,2001      Privatizing Peace:**

**From Conflict to Security** Allan Gerson, Nat Colletta, 2022-06-08 Privatizing Peace From Conflict to Security pinpoints the weaknesses in the numerous peacekeeping missions of recent decades as well as the blind spots in the thinking that guided them Even more significantly they clearly demonstrate the ways in which well meaning stabilization and reconstruction programs fail to accommodate the economic and social imperatives of war torn societies But this visionary work is not merely an indictment of First World myopia in the face of Third World devastation The authors offer cogent well thought out recommendations firmly grounded in current reality with a powerful determination to avoid the repetition of past mistakes Published under the Transnational Publishers imprint

*The Ingenuity Gap* Thomas F. Homer-Dixon, 2002

**The Ingenuity Gap** Thomas Homer-Dixon, 2002-08-13 Despite all of society's advances our problems proliferate Wars abound environmental degradation accelerates economies topple overnight and pandemics such as AIDS and tuberculosis continue to spread The Internet and other media help to disseminate knowledge but they've also created an info glut and left us too little time to process it What's more advances in technology have made the world so bewilderingly fast paced and complex that fewer people are able even to grasp the problems let alone generate solutions That space between the problems that arise

and our ability to solve them is the ingenuity gap and as we career towards an increasingly harried and hectic future the gap seems only to widen As he explores the possible consequences of this gap Thomas Homer Dixon offers an absorbing assessment of the state of the world and our ability to fix it Culling from an astounding array of fields from economics to evolution political science to paleontology computers to communications he integrates his vast knowledge into an accessible and engaging argument This is a book with profound implications for everyone that we can ill afford to ignore

*Hurry Up and Slow Down* Paul Faris,2003 To explore the idea of education to close the ingenuity gap I use Thomas Homer Dixon s work to define ingenuity The notion that the supply of ingenuity to solve our technical and social problems is not keeping pace with the ingenuity required to solve those problems is called the ingenuity gap Man made technological developments are increasing the density intensity and pace of globalisation People must reorganise decision making organisations and problem solving methods to pragmatically combat the growing ingenuity gap John Dewey s work illustrates the fundamental attitudes for the thinking and judgment associated with educating for ingenuity Howard Gardner s idea that truth beauty and morality ought to form the core values and tenets of the philosophy of educating for ingenuity is integral to this thesis The act of teaching facilitates the invitation to the communication necessary to foster ingenuity John Novak discusses the five relationships of educational leadership that enhance an environment of ingenuity The International Baccalaureate IB is an existing model of global education one that defines some of the school experiences and academic development of core values of educating for ingenuity Expanding upon the structure of the IB and other research within this thesis I speculate upon what my school where educating for ingenuity so as to close the ingenuity gap is the goal would be like
